Jason Dockter's behavior concerning a deal to provide his own building for the Attorney General's staff office space, using an unlicensed contractor, and getting paid for overruns with money from the attorney Generals's office not properly approved by the legislature is very troubling – it needs to be investigated. If your commission doesn't thoroughly investigate behavior such as this, your credibility would be about zero with me. People in the Majority Party, of which I have supported through the years, should not be able to get away with such behavior.
