ATTORNEY GENERAL ALLIANCE

OVERVIEW

Year in Review

Thanks to the contribution of many, 2021 proved to be a BIG year for the Cannabis Project. Throughout the year, we convened stakeholders in both virtual and in-person forums, supported bipartisan State AG activity, published biannual newsletters, collaborated with public and private sector experts on emerging issues, and assisted with multi-jurisdictional collaboration efforts to protect public health and safety.

We want to offer a special thanks to the many individuals and offices who volunteered extensive time and expertise supporting the publication of the **Cannabis Law Deskbook**. We are fortunate to announce that the **Cannabis Law Deskbook** is now available as an online Secondary Source for WestLaw subscribers. If you have questions about your access, please contact your WestLaw subscription administrator for more information.

In reflecting on the past year, four broad trends emerge across the cannabis landscape.

Program expansion. At various points throughout the year, over a half-dozen states entered the early phases of developing new intrastate adult-use cannabis markets in response to voter mandates or legislative enactments, including Arizona, Connecticut, New York, New Jersey, Montana, Virginia, and Vermont. As millions more Americans will soon be able to purchase state-legalized cannabis, this rapid expansion presents both opportunities and challenges. Primary focal points will include harmonizing and standardizing across state lines through interstate collaboration and coordination, as well as ensuring new state markets create safe and stable supply chains that incentivize market participation and reduce the impacts of illegal activity.

Delta-8 THC and other underregulated products. This rapid intrastate expansion was coupled with the rise of a marketplace for cannabis products containing new and unforeseen cannabis isomers, including Delta-8 THC, Delta-10 THC, CBG, and CBN. These products are available in markets operating with questionable legality. As these products are subject to very little, if any, federal or state regulatory oversight, consumers cannot be ensured of safe and secure manufacturing supply chains or techniques. Indeed, market research from both private and public entities suggests many of the available products contain a high degree of harmful additives and are a potential source of an increase of adverse health events. The rise of products that contain unregulated psychoactive THC isomers represents a source of concern for law enforcement, regulators, and consumer protection and public health advocates.

Illegal activity. Despite the expansion of intrastate cannabis programs, the size and scope of the illicit cannabis market has not decreased. In certain jurisdictions, sales from illicit cannabis suppliers outpaces legal and licensed cannabis activity. Illicit cannabis operators lack incentives to grow and manufacture products that are free from harmful contaminants such as pesticides, molds, heavy metals and harmful solvents. Moreover, illicit cultivations are often the site of serious environmental impacts including overwatering, chemical displacement, and illegal use of public and protected lands, as well as potential human trafficking and violent crimes. Finally, illicit cannabis products, like look-alike candy and packaged goods, are sold through deceptive practices and meant to entice youth consumption.

Social Equity. Nearly all jurisdictions permitting adult-use cannabis are grappling with how best to center social equity within their state programs. Two articles below describe the work to date. Cat Packer, Executive Director of the City of Los Angeles' " cannabis program and Cannabis Law Deskbook author, reminds us, *social equity is a responsibility of all those in public service. Governments at all levels must fully account for the harms of the War on Drugs, which include harms experienced by way of cannabis prohibition and its enforcement.* Social equity as a responsibility for cannabis public policy makers, Cannabis Law Deskbook Ag

Body

1/2 (2021-2022 ed.)

Social equity programs seek two main objectives: Rectifying harms caused by disproportionate enforcement of cannabis prohibition, and expanding opportunities in the cannabis industry for those communities and individuals harmed. Programs include offering pathways for individuals to obtain collateral relief for qualifying past convictions (e.g. record sealing, expungement, or pardons), reinvesting tax revenue collected from cannabis sales into communities through grant programs to nonprofit organizations, and expanding opportunities for ownership and employment within intrastate markets through licensing, access to capital for owners, and educational training. Designing and implementing these programs with efficiency, effectiveness, and with low litigation risk, is a challenge but possible through collaboration, constant data collection, and stakeholder feedback.

As the AGA's Cannabis Project prepares for 2022 programming, we expect each of these issues will continue to draw attention from both public and private participants. We welcome your feedback on future programming and look forward to your participation.

Have a happy, healthy, and safe New Year!

SOCIAL EQUITY UPDATES

Two New Social Equity Reports Released

Social equity considerations are the focus of much attention, as new state cannabis programs are aimed at rectifying harms caused by the disproportionate criminal enforcement of cannabis prohibition and increasing minority ownership and employment in the expanding cannabis marketplace.

The first report, “Fair and Square: How to Incorporate Social Equity into Cannabis Laws and Regulations”, authored by Shaleen Title, former Commissioner of the Massachusetts Cannabis Control Commission (Mass CCC), discusses how state and local regulators can implement social equity policies along three domains: qualified applicants, benefits for applicants, and licensing policies.

The second, “Racial Equity in Cannabis Policy,” authored by current researchers in the Mass CCC, is the first social science research applying methodological analysis of racial and ethnic diversity in the Massachusetts cannabis industry.

Can you help? Here's how it works:</p> <ol style="list-style-type: none"> 1. Each location (Capitol 1st Floor, Capitol 17th Floor, AG South, BCI, and Medicare) will have an empty box ready for you to put your donated items in. 2. Collect as much non-perishable food as you can. We'll divide the number of food we collect by the number of people in our agency and average for our total. (This makes it fair for smaller agencies to compete against larger agencies) 3. Food collection will run from Tuesday the 30th of November, until Tuesday the 14th of December. On Thursday the 16th, we will drop off the food donations to the Bismarck Emergency Food Pantry (1012 S 12th St, Bismarck, ND 58504) between 1 p.m. and 4 p.m. <p>Let's donate some food for people in need!</p> <p>Thank You,</p> <p><i>Ashley Eisenbeis</i> Human Resources Officer II NORTH DAKOTA OFFICE OF ATTORNEY GENERAL Email: aeisenbeis@nd.gov Phone: 701-328-1256</p> |

Thank you for participating.</p> <hr/> <p>Hello,</p> <p>Just wanted to first thank you for all of your office's work collecting food for people in need this holiday season! When we called the Emergency Food Pantry to let them know how much food (over 4,000 items!) was coming their way they said it was their largest donation ever. Thank you and your team so much for all of your work!</p> <p>Also just as a heads up, the attached press release will be going out later today letting the media know about the work all agencies have done to make this possible.</p> <p>Thank you so much again, appreciate all of your work!</p> <p>Emily</p> <p>Emily Dalzell Communications Officer</p> <p> 600 E. | Body | <p>Good morning,</p> <p>The interim Government Administration Committee, Senator Randy A. Burckhard, Chairman, has been assigned studies of space needs and property leased by the state pursuant to Section 43 of House Bill No. 1015 (2021) and House Concurrent Resolution No. 3043 (2021). These studies include a determination of the <u>individuals</u> who own the property leased by the state, including the members of a corporation, partnership, or any other type of entity that owns property leased by the state. At the October 25, 2021, Government Administration Committee meeting, the Legislative Council was asked to conduct a survey of state entities to collect information on space needs and leased property ownership. The committee members are aware state leases do not always identify the individual owners of property and have requested agencies/entities ask their lessors for the information. Please complete the attached survey regarding state agency space needs and leased property ownership and return the completed survey to me via email (ajcronquist@nd.gov) by Monday, February 28, 2022.</p> <p>If you have any questions regarding this survey, please feel free to contact me.</p> <p>Thank you.</p> <p>Alex Cronquist, CPA Senior Fiscal Analyst North Dakota Legislative Council (701)328-4238 ajcronquist@nd.gov</p> |

Subject: RE: OSHA ARGUMENT SCHEDULED FOR 1/7

I spoke with NFIB. They are happy to divide time, though we postponed the precise division until tomorrow.

I will plan on arguing this, absent any objections

WINTER CONVENING

Safe Meeting Protocols

We look forward to seeing you at the upcoming Chair's Initiative!

With the rise of Omicron and a surge in COVID-19 cases, the Attorney General Alliance Team has been actively monitoring the pandemic. We are committed to providing a safe, enjoyable environment for all attendees. As such, AGA has put in place the following preventative measures to reduce the spread of COVID-19:

1. As a voluntary initiative to enhance the safety of our event, all attendees are asked to take a COVID test at least three days prior to traveling to Avon, Colorado. While you will not be required to share your test results, AGA staff may assist with timely travel cancellations.
2. In an effort to reduce the possibility of exposing a colleague or loved one to the virus, all attendees will receive a rapid antigen detection test for COVID-19 upon arrival. Attendees are requested to immediately self-test upon hotel check-in. Attendees are then asked to apply individual-level responsibility and a strong sense of civism regarding their rapid test result. Attendees may voluntarily share test results with AGA staff to assist with quarantine or isolation procedures.

"No testing information will be requested nor collected by the AGA."

On Monday, December 27, the CDC updated its [guidance on quarantine and isolation](#), which is tied to vaccination status. Consistent with CDC guidelines, all participants are encouraged to follow vaccination recommendations, practice hand hygiene, "social distancing" and wear face coverings to reduce the risks of exposure.

In light of the ongoing spread of COVID-19, individuals who fall within any of the categories below should not engage in the AGA Chair's Initiative:

1. Individuals who currently or within the past fourteen (14) days have experienced any symptoms associated with COVID-19, which include fever, cough, and shortness of breath; or
2. Individuals who believe that they may have been exposed to a confirmed or suspected case of COVID-19 or have been diagnosed with COVID-19 and are not yet cleared as non-contagious by health authorities or the health care team responsible for their treatment.

If you don't feel well or show any symptoms of COVID-19, please stay home.

Date Change: September 7 & 8, 2022. [View in browser](#)

Due to the rapid escalation of the Omicron variant of C19 in the USA and elsewhere, we have decided to move ADAS & Autonomous Vehicle Technology Expo & Conference to run on **September 7 & 8, 2022**.

We all hope - and have fair reason to expect - that the real impact of Omicron will not be anything like as severe as that of C19 during the last two years. However, it will definitely cause some disruption, uncertainty and potentially some hesitance for some people about joining moderately large gatherings at indoor events. Therefore, rather than running the risk of presenting an event that is less than 100%, we have discussed the issue with our exhibitors and agreed that it is much better to postpone the expo until the late summer.

All arrangements are essentially in place, with an excellent line-up of exhibitors and a lively conference program that has some excellent content. More exhibitors are signing up every week and even more content will have been added by the time we run the event in September.

Footnote: I attended the first-ever autonomous highway demonstration in San Diego in 1997 and was also a guest at the PROMETHEUS final meeting in Paris a few years earlier, in 1994. The highlight of the event in France was the Mercedes S Class driving itself fully autonomously rather well. The San Diego event featured Buick LeSabres platooning along a closed-off section of freeway at 60mph. I was also the first person in Europe to drive the GM EV1.

Rest assured, this is all a key part of my world and I truly look forward to bringing a really exciting event to you all in California.

Best regards,
Tony Robinson, founder, ADAS & Autonomous Vehicle Technology Expo & Conference

The good news is that moots have been going well and we look forward to argument tomorrow. The bad news I will have to participate by phone: despite being triple vaccinated and taking precautions, I had an asymptomatic case of COVID. I've since recovered but the PCR test—which can pick up results up to 90 days old—detected the virus. I'm very sorry about this, but I'm confident it won't affect our case. I have a practice session with the Court to test audio, and I'm told another attorney in one of the cases will also be remote.</p> <p>Ben Flowers Ohio Solicitor General Office of Ohio Attorney General Dave Yost Office number: (614) 728-7511 Cell phone: (614) 736-4938 benjamin.flowers@ohioattorneygeneral.gov</p> <p>Confidentiality Notice: This message is intended for use only by the individual or entity to whom or which it is addressed and may contain sensitive data and information that is privileged, confidential and/or otherwise exempt from disclosure under applicable law. The good news is that moots have been going well and we look forward to argument tomorrow. The bad news I will have to participate by phone: despite being triple vaxxed and taking precautions, I had an asymptomatic case of COVID. I've since recovered but the PCR test—which can pick up results up to 90 days old—detected the virus. I'm very sorry about this, but I'm confident it won't affect our case. I have a practice session with the Court to test audio, and I'm told another attorney in one of the cases will also be remote.</p> <p>Ben Flowers Ohio Solicitor General Office of Ohio Attorney General Dave Yost Office number: (614) 728-7511 Cell phone: (614) 736-4938 benjamin.flowers@ohioattorneygeneral.gov</p> <p>Confidentiality Notice: This message is intended for use only by the individual or entity to whom or which it is addressed and may contain sensitive data and information that is privileged, confidential and/or otherwise exempt from disclosure under applicable law. Plaintiffs have not brought a section 2 results claim, but only a discriminatory-purpose claim and an undue-burden claim. Subject: Draft States Amicus Brief - Mi Familia Vota v. Hobbs

Hello all,

I've attached a draft States amicus brief in support of Arizona's motion to dismiss in its most recent voting litigation concerning two laws: (1) requiring missing signatures on mail-in ballots to be provided by election day; and (2) removing voters from the early voting list such that they no longer automatically receive mail-in ballots if they don't vote for two cycles and fail to respond when asked if they wish to remain on the list. Plaintiffs have not brought a section 2 results claim, but only a discriminatory-purpose claim and an undue-burden claim. Our amicus brief focuses on the purpose claim and highlights the need for adequate allegations of invidious purpose, the presumption of legislative good faith, and the discovery burdens that await if the motion to dismiss is denied.

We'd like to file this on Friday, so please let me know if you'd like to join by **noon (CT) on Friday, January 21**. Thank you!

To recap the brief -- voting rights plaintiffs shouldn't be allowed to take insufficient section 2 results allegations and just claim "discriminatory purpose" in order to survive a motion to dismiss. We'd like to make a strong showing in support of Arizona on this one, so let me know if you have any questions or concerns about the brief. Hobbs</p> <p>Hello all,</p> <p>I've attached a draft States amicus brief in support of Arizona's motion to dismiss in its most recent voting litigation concerning two laws: (1) requiring missing signatures on mail-in ballots to be provided by election day; and (2) removing voters from the early voting list such that they no longer automatically receive mail-in ballots if they don't vote for two cycles and fail to respond when asked if they wish to remain on the list. Plaintiffs have not brought a section 2 results claim, but only a discriminatory-purpose claim and an undue-burden claim. Our amicus brief focuses on the purpose claim and highlights the need for adequate allegations of invidious purpose, the presumption of legislative good faith, and the discovery burdens that await if the motion to dismiss is denied.</p> <p>We'd like to file this on Friday, so please let me know if you'd like to join by noon (CT) on Friday, January 21. Thank you!</p> <p>Beth</p> <p>Beth Klusmann Assistant Solicitor General Office: (512) 936-1914 Cell: (469) 385-7590</p> |

I'm always surprised at how well Wayne Stenehjem (sure now that he's retiring, I can finally spell his name first try) can calm down a room full of prosecutors and explain, we know we have a problem with x, and here's what we are doing to try to address it.</p> <p>Rosalie Etherington, Superintendent of the ND St. Hospital, is also coming to the conference on Wednesday the 20th and I would imagine she will address funding limitations too. Remember, she was told to cut her budget by 9 million last session.</p> <p>Ask questions, we'll get some answers. The State-specific allegations for plaintiffs and states are still a work in progress, but we have a robust coalition. Several states have sent me some suggested revisions, including minimizing allegations that get into efficacy of vaccines. I agree with that approach. I didn't take it all out but modified some paragraphs and deleted others. I worked on amplifying State standing allegations.</p> <p>Please provide me with signature blocks and any other recommendations. GA has provided a declaration, which may change a little but is provided for your reference. Also attached a draft Dec we are using with our program directors. If you have a superintendent of a public school system who is a willing declarant, it would be helpful for him/her to speak to blending of funds, need to lean on the state to backfill lost funding, educational opportunities lost and hindred for entering Kindergarten.</p> |

JANUARY EVENTS & INFORMATION

HAPPY NEW YEAR!

Every month, GNDC provides opportunities to our membership, the business community of North Dakota, to utilize membership benefits and network. We provide events, webinars, and publications that report on issues directly impacting your organization.

As you prepare for the coming year, we want to provide you with a list of sponsorship opportunities to engage with GNDC members.

Sponsorship benefits will:

- Strengthen your brand among a statewide audience of decision-makers
- Promote your organization's products and services to garner new leads and interest
- Spotlight recognition from our team

Depending on your investment level you also have the opportunity to:

- Address our audience
- Obtain the contact list for event attendees
- Impress your logo at events, on our website, within our publications

We can build custom packages to fit needs and budgets, depending on your campaign goals and monetary restraints.

Contact me at 701.222.0929 or via email at chris@ndchamber.com.

Don't know where to get started or have questions? Let's chat. We want solutions to further your success!

Looking forward to a great 2022!

Chris Kalash
Director of Membership Services

Moreover, OSHA has previously indicated that the "ETS also acts as a proposal for a permanent standard." Thus, unless the ETS is withdrawn before then, Kentucky plans to proceed with submitting a comment letter in opposition to the ETS (and any similar permanent standard) next Wednesday. We are in the process of revising the draft comment letter to incorporate reference to yesterday's Supreme Court opinion, and will circulate that new draft by Monday to invite any other AG's who would like to join the comment letter to do so Best.</p> <p>Christopher L. **Episode 6: The State of Idaho
Attorney General's Office**

While discussions of cannabis legalization tend to be distilled into binary decisions - either for or against - the realities of these policies are often far more complex. Regardless of the legal status of Cannabis, these complexities must be analyzed and addressed by the state Attorney General's Office. **Episode 6: The State of Idaho Attorney General's Office**, features special guest Brian Kane, Chief Deputy Attorney General at the Idaho Attorney General's Office. Episode 6: The State of Idaho Attorney General's Office

While discussions of cannabis legalization tend to be distilled into binary decisions - either for or against - the realities of these policies are often far more complex. Regardless of the legal status of Cannabis, these complexities must be analyzed and addressed by the state Attorney General's Office. **Episode 6: The State of Idaho Attorney General's Office**, features special guest Brian Kane, Chief Deputy Attorney General at the Idaho Attorney General's Office. Recent Updates Every State Leader Should Know

- 1.** The U.S. Department of the Treasury issues Final Rule for State and Local Fiscal Recovery Funds program that allows state and local governments to meet immediate pandemic needs as well as invest in long-term recovery.

The State and Local Fiscal Recovery Fund is designed to ensure state and local governing bodies can sustain important services during the pandemic, including providing health care and vaccines, mitigating economic impacts, supporting families and building a strong recovery. As part of this program, the Department of the Treasury has distributed more than \$245 billion. The Final Rule provides governments with simpler rules providing greater discretion in the use of funds.

 - Establishes a *destandard* allowance of up to \$10 million states may spend on government services instead of using the Treasury formula to calculate revenue loss. The Treasury formula can still be used and has been revised from the interim Final Rule to be more flexible.
 - Provides broader discretion in determining households, communities, small businesses and industries impacted and disproportionately impacted by the COVID-19 health emergency and expands the eligible use of funds.
 - Provides a broader menu of options for states to restore and bolster public sector capacity.
 - Provides clarity for recipients regarding use of funds to invest in capital expenditures as part of their public health or economic recovery response.
 - Expands the way states can provide premium pay for essential employees.
 - Broadens the use of funds for investments in water and sewer infrastructure.
 - Expands eligible use of funds to build broadband infrastructure and to ensure equitable access.
 - Maintains the interim Final Rule's restrictions on use in other areas with additional clarifications.

Stay tuned for the next newsletter for a full analysis of the Final Rule. The full text of the Final Rule can be found <https://www.federalregister.gov/documents/2021/01/14/2021-01-14-final-rule>, and a more user-friendly overview can be found <https://www.federalregister.gov/documents/2021/01/14/2021-01-14-final-rule>.

- 2.** Before the holidays, the Senate indefinitely postponed action on President Biden's Build Back Better Act (BBB) a series of measures related to education, health care, employment, the environment and taxation. The bill passed the House on Nov. 19. In the absence of Republican support, all 50 Senate Democrats must support the bill's passage. Two Democratic senators currently do not. Talks continue among the Biden administration and Senate leadership. No vote is currently scheduled.

One of the components of Build Back Better is an extension of increases to federal child tax credits. The American Rescue Plan Act increased the

Body

3. existing credit from \$2,000 per child to \$3,000 per child for children over the age of six and from \$2,000 to \$3,600 for children under the age of six. These increases expired in December.

Recent Updates Every State Leader Should Know

- 1.** The U.S. Department of the Treasury issues Final Rule for State and Local Fiscal Recovery Funds program that allows state and local governments to meet immediate pandemic needs as well as invest in long-term recovery.

The State and Local Fiscal Recovery Fund is designed to ensure state and local governing bodies can sustain important services during the pandemic, including providing health care and vaccines, mitigating economic impacts, supporting families and building a strong recovery. As part of this program, the Department of the Treasury has distributed more than \$245 billion. The Final Rule provides governments with simpler rules providing greater discretion in the use of funds.

 - Establishes a *destandard* allowance of up to \$10 million states may spend on government services instead of using the Treasury formula to calculate revenue loss. The Treasury formula can still be used and has been revised from the interim Final Rule to be more flexible.
 - Provides broader discretion in determining households, communities, small businesses and industries impacted and disproportionately impacted by the COVID-19 health emergency and expands the eligible use of funds.
 - Provides a broader menu of options for states to restore and bolster public sector capacity.
 - Provides clarity for recipients regarding use of funds to invest in capital expenditures as part of their public health or economic recovery response.
 - Expands the way states can provide premium pay for essential employees.
 - Broadens the use of funds for investments in water and sewer infrastructure.
 - Expands eligible use of funds to build broadband infrastructure and to ensure equitable access.
 - Maintains the interim Final Rule's restrictions on use in other areas with additional clarifications.

Stay tuned for the next newsletter for a full analysis of the Final Rule. Elizabeth,

Here is a standing/parties edit for South Dakota:

The State of South Dakota is a body politic created by the Constitution and laws of the State, as such, it is not a citizen of any state. This action is brought by the State in its sovereign capacity in order to protect the interests of the State of South Dakota and its citizens as *potens potior*, by and through Jason R. Ransborg, the Attorney General of the State of South Dakota. The Attorney General is acting pursuant to his authority to appear for the State and prosecute any civil matter in which the State is a party or interested when, in his judgment, the welfare of the State demands. SDCL §1-11-1(2).

Thanks,

David

SD will likely join LA. Elizabeth, can you share a draft declaration and I will see if I can find appropriate signatories.

Subject: RE: ACF/OHS/HHS - Head Start Mandate

Louisiana is in the process of drafting a complaint. We will have draft declarations available today. We have identified about 6 program directors willing to sign declarations (some more detailed than others).

We plan to file in the Western District of La., which at this point is where most if not all our declarations will come from. As a practical matter, I don't think we can get the Complaint and PI filed until next week so we are shooting for Tuesday of next week.

We welcome all joiners.

Comrie,
 Kentucky would be interested in knowing if anyone in this group may be considering litigation related to the recent Head Start Mandate. See Published rule, <https://public-inspection.federalregister.gov/2021-25869.pdf>
 If so, please let me know.
 Thank you,

Elizabeth,

Here is a standing/parties edit for South Dakota:

The State of South Dakota is a body politic created by the Constitution and laws of the State, as such, it is not a citizen of any state. This action is brought by the State in its sovereign capacity in order to protect the interests of the State of South Dakota and its citizens as *potens potior*, by and through Jason R. Ransborg, the Attorney General of the State of South Dakota. The Attorney General is acting pursuant to his authority to appear for the State and prosecute any civil matter in which the State is a party or interested when, in his judgment, the welfare of the State demands. SDCL §1-11-1(2).

Thanks,

David

David M. McVey

I will share this afternoon. Happy to take edits too. We are just compiling our notes from talking to Directors and teachers. If you have someone who has more to add or has special expertise in speech development and early childhood ed then just adapt.

Subject: RE: ACF/OHS/HHS - Head Start Mandate

Louisiana is in the process of drafting a complaint. We will have draft declarations available today. We have identified about 6 program directors willing to sign declarations (some more detailed than others).

We plan to file in the Western District of La., which at this point is where most if not all our declarations will come from. As a practical matter, I don't think we can get the Complaint and PI filed until next week so we are shooting for Tuesday of next week.

We welcome all joiners.

Hi Wayne,

Also, I never got you an update on the fatal explosion last week.

Our DFM did investigate and ATF is assisting her. One fatality resulted, and one injured party is in the hospital and won't be able to interview for a number of weeks at this point due to the injuries sustained.

We were able to obtain video of the exact moment the explosion occurred (let me know if you want to see it and I can have our DFM share it with you over teams if you are interested).

It looks like the cause may be due to the work the gentlemen were doing or how they were doing it. However, we will not have an official cause (if we do print one) until the complete report is approved.

If you want any more information, let me know.

Thanks and Happy New Year to you as well!

Doug Nelson

| Body | <p>Good morning Wayne and Troy,</p> <p>First off, sorry to hear you are both not feeling well, hope you kick it soon and start feeling better.</p> <p>Secondly, our DFM candidate is in town today to complete the final items related to her conditional offer. The background investigation is complete and there was nothing to report and no reasons why she would not be a good candidate. She is in with the psychological Dr. this morning and will be up to meet with Ashley this afternoon. We have been struggling to fill this position for 7 months, and the hiring process has been slow as it is. I am hoping that we can proceed with a final offer at this point as to not put off a start date any further.</p> <p>Are you ok with us proceeding with a final offer for this candidate so that we can have her start with our office on February 14th? I would schedule her to meet with you both on her first week orientation so you would get a chance to talk with her then.</p> <p>Attached are her cover letter, resume and the memo requesting approval for a final offer and the final job offer letter. Please let me know whether you approve of this or not and if you have any questions or concerns.</p> <p>Thanks,</p> <p>Doug Nelson</p> |

Welcome back to the skies. We're looking forward to seeing you onboard soon for your flight to the U.S. Before you go, there are a few things you need to do.

Even though travel now may require you to pack a few more things than before, don't worry â€” **Delta FlyReady**™ makes uploading and verifying your test results and proof of vaccination easy, and we'll guide you through the steps so you can travel confidently with more peace of mind.

FIVE EASY STEPS BEFORE YOU GO

1

Take a COVID-19 Test:

Youâ€™ll need to take a COVID-19 viral test (molecular, nucleic acid amplification (NAAT), RT-PCR, TMA, LAMP, and antigen test accepted) within 1 day of your flightâ€™s departure to the U.S., regardless of citizenship or vaccination status. Needâ€™ help finding a convenient testing location? [Click here.](#)

2

Visit Delta FlyReady™ to upload and verify before you check-in:

If you are eligible based on your destination, use the document and forms upload tools **by entering your confirmation number** to save time at check-in and have your documents verified prior to arriving at the airport.

3

Donâ€™t Forget to Check Other Required Documents:

Make sure that passports, visas and/or ESTAs are valid for entry into the U.S. too.

4

Bring Your Test Results and Proof of Vaccination:

Throughout your trip, youâ€™ll need to show yourâ€™ negative COVID-19 testâ€™ result andâ€™ proof of vaccination,â€™ so donâ€™t forget to pack printed or

Body

digital copies.

5

Review Entry Requirements for Connecting Flights:
 If you are connecting before you enter or through the U.S., **review** any connecting airport's entry requirements too.

Find answers to [Frequently Asked Questions](#), including information about exemptions and more on [delta.com](#). We look forward to seeing you onboard soon.

Dear Wayne,

It was inspiring to see so many of you booking travel for this holiday season to visit loved ones, reconnect with friends and celebrate together. And Delta's 75,000 employees across the globe – who together have worked to make us the world's most reliable airline – were ready and excited to deliver the service we're known for and get you where you needed to go. Unfortunately, a series of winter weather systems throughout the U.S. coupled with the rapidly spreading Omicron variant put extraordinary pressure on our operation, our employees and customers like you. It has been one of the most difficult operational environments we've ever faced, and it forced us to cancel hundreds of flights as a result.

We know you expect the best from Delta – and you should, and I want to apologize to everyone whose travel plans have been impacted. Canceling a flight is always Delta's last resort. It's not only difficult on you, but it's also hard on our people, who truly want nothing more than to take care of you – especially over the holidays. While our teams work around the clock to restore our operation and serve you, here are some things to keep in mind for your upcoming travels:

TAKING ACTION TO SUPPORT YOU

Our teams have been hard at work to support you and alleviate the difficulties of the challenging period, working to reroute and substitute aircraft and crews to get you on your way quickly and safely. When that hasn't been possible, our Reservation specialists work closely with our Operations and Customer Care Center to get those impacted onto the next available flight. In addition, we are notifying customers as early as possible of changes to their travel itineraries and **issuing travel waivers** ahead of winter weather forecasts. Delta has also focused on making travel more flexible – including removing change fees for most tickets, **extending Medallion Status** and key SkyMiles benefits into January 2023, and providing more ways for you to manage your trips from your own device.

UPDATED HEALTH GUIDANCE RELIEVES OPERATIONAL STRAIN

New CDC isolation and quarantine guidelines, which are based on the latest scientific research on the Omicron variant, are expected to help alleviate staffing pressure in the weeks ahead and smooth out operational difficulties. Our medical advisors, led by Delta Chief Health Officer **Dr. Henry Ting**,

However, Omicron is much more transmissible than previous variants, so we are grateful for your continued mask wearing on board as it proves to be an effective tool in virus mitigation and remains a federal requirement.</p> <p>NEW TOOLS TO GIVE YOU MORE CONTROL</p> <p>We've invested throughout 2021 in upgrading our digital tools to help you navigate the current environment with self-service options designed to save you time. That includes the ability to quickly change or cancel a flight, find baggage information, select your seat or request assistance with accessible travel via delta.com or the Fly Delta app. And if you're flying internationally, we've worked to remove the guesswork from health requirements with Delta FlyReadySM, offering the ability to upload and verify government forms, proof of vaccination and negative COVID-19 testing for many destinations.</p> <p>As the world manages through these uncertain days, please know that all of us at Delta are committed to delivering the world-class safety, service and reliability you have come to expect from us. With grit, determination and dedication, our team has overcome numerous challenges since the pandemic began, and you have my commitment that we'll continue to take care of you as we work to deliver the seamless and enjoyable experience you expect and deserve when you travel with Delta. In the meantime, our thoughts are with everyone experiencing the virus firsthand. Please stay safe and take care.</p> <p>Thank you for your business and loyalty. Promotional Period: April 1, 2021 – December 31, 2022

Other: SkyMiles Members (–Medallion Members) will earn Medallion Qualification Miles (MQMs), Medallion Qualification Segments (MQSs) and Medallion Qualification Dollars (MQDs) for Award Travel flights that are both marketed (flight number begins with “DL”) and operated by Delta Air Lines, Delta Connection® carriers or Delta Shuttle® (“Medallion Carriers”) and are flown during the Promotional Period. Only qualifying activity (as defined below) will be eligible for the bonuses.

Qualifying Activity: Qualifying flight activity includes Award Tickets, Miles + Coach Tickets, Pay with Miles tickets, post-purchase upgrades and flights booked as a part of a Delta Vacations® package, but does not include travel on partner airlines (even if marketed by Delta), exception fares (not including Delta vacations), Award redemptions on non-air products or fees. MQMs, MQSs and MQDs are earned by the Member who is flying, regardless of who booked or redeemed miles for the ticket, and are awarded after the ticket is flown. Promotional Period is calculated based on the day the flight departs; flights departing March 31, 2021 (arriving April 1) will not earn MQMs, MQSs, and

Congratulations on reaching your third of four Status Boosts this year. You've earned **Medallion® Qualification Miles (MQMs)** for spending on your Delta SkyMiles® Reserve American Express Card.¹

Choose how you want to use them:

Keep Your Status Soaring

Visit your SkyMiles account to claim your MQMs. MQMs can help you earn or elevate your Medallion Status.

OR

Make Someone's Day

You can gift your MQMs to a loved one or friend by depositing them into their account within 30 days. If a recipient is not chosen within 30 days, we will automatically add the MQMs to your account.

Terms and Conditions:

*** Status Boost For Reserve**

If in any calendar year eligible purchases on the Delta SkyMiles® Reserve Card are \$30,000 or more, the Basic Card Member will be awarded 15,000 Medallion Qualification Miles ("MQMs" as defined in the Delta SkyMiles Membership Guide and Program Rules). If in that same calendar year eligible purchases on the Card are \$60,000, \$90,000, and \$120,000 or more, the Basic Card Member will be awarded an additional 15,000 MQMs for each threshold. The close of the calendar year is December 31, without regard to the time of the year that the account is opened. This means that for the first year of Card Membership, the Card Member's eligibility period for the Status Boost® benefit may be less than twelve months. Eligible purchases means purchases for goods and services minus returns and other credits. Eligible purchases do NOT include fees, interest charges, cash advances, purchases of travelers' checks, purchases of gift cards, person-to-person transactions, purchases or reloading of prepaid cards, or purchases of other cash equivalents. Eligible purchases may fall outside of a calendar year in some cases, such as a delay in merchants submitting transactions to us or if the purchase date differs from the date you made the transaction. For example, if you buy goods online, the purchase date may be the date the goods are shipped. Additional Card Member(s) are not eligible to receive MQMs through the Status Boost benefit, however, all eligible purchases by the Additional Card Member(s) will count towards the Basic Card Member's spend level to reach the Status Boost thresholds. To receive the MQMs, your account must not be canceled or past due at the time the MQMs are posted to your account. MQMs only count towards Medallion Status. MQMs cannot be redeemed toward Award Travel or other Delta redemption options. Card Members are only eligible to receive one annual bonus per threshold per calendar year for each type of eligible Delta SkyMiles Card (e.g., Platinum or Reserve) that is linked to the same SkyMiles account. MQMs can be kept by the Basic Card Member or gifted to someone else. MQM gift recipients must have a valid SkyMiles account. If a MQM gift recipient is not designated within 30 days of the MQMs being made available, the MQMs will be deposited in the Basic Card Member's SkyMiles account. You can claim or gift MQMs by logging into delta.com and reviewing your SkyMiles account. Eligibility for Delta's Medallion Status is not based on MQMs alone. Delta SkyMiles members can qualify for Medallion Status through a combination of miles or segments flown and annual spending. For more information about the requirements for Medallion Status, please visit www.delta.com/en_US/skymiles/medallion-program. Effective for travel on or after January 1, 2022, Basic Economy fares do not earn miles or earn toward Medallion Status. Full details: delta.com/memborguide.

Limited-Time Bonus Offer on Airport Rides: Lyft users who have Linked Accounts may receive 4 miles per \$1 USD, excluding taxes, fees, toll and tip spent on eligible Lyft Airport Rides from July 7, 2021 through September 10, 2021. **Eligible Lyft Airport Rides:** means an eligible Lyft Ride originating or terminating at any airport where Lyft operates within the United States. All Lyft ride types are eligible, whether such ride qualifies as an airport ride for purposes of the bonus will be determined in Delta's and Lyft's discretion.

Additional Lyft terms: Restrictions apply. When Lyft fares are split among multiple users, only the user requesting the ride will earn miles. Lyft not available in all locations, including Puerto Rico. When calculating miles earned, fares will be rounded to the nearest dollar, and then any promotional offer will be calculated on the rounded amount. By using Lyft, you agree to Lyft's Terms of Service. You may unlink your accounts at any time upon request by visiting the Lyft Connected Services page and scrolling down to "Connected Apps" and tapping "Remove" next to Delta SkyMiles.

Please allow up to 60 days for bonus miles to be added to your account.

Delta may change the SkyMiles program rules, change or terminate program partners, regulations, benefits, conditions of participation or mileage levels, in whole or in part, at any time with or without notice, even though changes may affect the value of mileage already accumulated. This offer may be terminated by Delta at any time with or without notice. All SkyMiles program rules apply to SkyMiles program members: miles, offers, mile accrual, mile redemption, and travel benefits. Offers void where prohibited by law. Other restrictions may apply. Limited-Time Bonus Offer on Airport Rides: Lyft users who have Linked Accounts may receive 4 miles per \$1 USD, excluding taxes, fees, toll and tip spent on eligible Lyft Airport Rides from July 7, 2021 through September 10, 2021. **Eligible Lyft Airport Rides:** means an eligible Lyft Ride originating or terminating at any airport where Lyft operates within the United States. All Lyft ride types are eligible, whether such ride qualifies as an airport ride for purposes of the bonus will be determined in Delta's and Lyft's discretion.

Additional Lyft terms: Restrictions apply. When Lyft fares are split among multiple users, only the user requesting the ride will earn miles. Lyft not available in all locations, including Puerto Rico. When calculating miles earned, fares will be rounded to the nearest dollar, and then any promotional offer will be calculated on the rounded amount. By using Lyft, you agree to Lyft's Terms of Service. You may unlink your accounts at any time upon request by visiting the Lyft Connected Services page and scrolling down to "Connected Apps" and tapping "Service" next to Delta SkyMiles.

Please allow up to 60 days for bonus miles to be added to your account.

Delta may change the SkyMiles program rules, change or terminate program partners, regulations, benefits, conditions of participation or mileage levels, in whole or in part, at any time with or without notice, even though changes may affect the value of mileage already accumulated. This offer may be terminated by Delta at any time with or without notice. All SkyMiles program rules apply to SkyMiles program members: miles, offers, mile accrual, mile redemption, and travel benefits. Offers void where prohibited by law. Other restrictions may apply. To review the rules, please visit [delta.com/memberguide](#).

Wayne and Jace,
I thought both of your offices may like to know about the retirement of Sioux County Sheriff Frank Landeis. Sheriff Landeis has ran a one man department – he has had no deputies and also serves his county in other capacities as well. He's been Sheriff for 27 years!
He is retiring at the end of the year. Information on a celebration honoring his service is below.

Thanks,

Sheriffs, I've been asked to pass on that Sioux County Sheriff Frank Landeis is retiring after 30 some years. He is actually our longest-serving Sheriff in ND.
They will have an open house honoring Sheriff Landeis on December 30th starting at 1 p.m. in the Sioux County Courthouse.

Hi all,

Here is a very slightly updated version of the amicus brief supporting the challenges to SEC's/Nasdaq's explicit race- and sex-based quotas, and last call for sign-ons.

Thanks to everyone that has joined so far. We are currently at 8 states: Arizona, Alabama, Alaska, Arkansas, Louisiana, Mississippi, Montana, and South Carolina.

We can accept sign-ons until **tomorrow, Monday, December 27 at 5pm EST**. Please also let us know if you have any questions, concerns, or edits.

Sincerely,
Drew

Subject: Re: Amicus Brief Supporting Challenge to NASDAQ Race- and Sex-Based Quotas

Hi all,

Attached is a slightly updated version of the Fifth Circuit amicus brief for the Nasdaq/SEC Quota Rule challenge. So far Alaska, Arkansas, and Montana have joined.

Basically, the brief makes two points that are probably pretty uncontroversial for this group: (1) explicit race- and sex-based quotas are bad and violate the Constitution and (2) SEC cannot use a highly generalized and circumscribed grant of authority to intrude upon an area traditionally regulated by state law and in service of an agenda of restructuring society in the agency's own social-justice-minded image (while violating the Constitution in the process).

We will be able to accept sign-ons until **December 27 at 5pm Eastern**. Please let us know if you have any questions or would like to discuss any of this.

Sincerely,
Drew

Subject: Re: Amicus Brief Supporting Challenge to NASDAQ Race- and Sex-Based Quotas

Hi all,

Attached is our draft amicus brief in support of the challenges to the SEC/Nasdaq Quota Rule. Please let us know any questions or suggestions that you have. Given the outrageousness of SEC's adoption of explicit race- and sex-based quotas for Nasdaq-listed companies, we are hopeful that we can have a broad coalition here.

Hi all,

Attached is a slightly updated version of the Fifth Circuit amicus brief for the Nasdaq/SEC Quota Rule challenge. So far Alaska, Arkansas, and Montana have joined.

Basically, the brief makes two points that are probably pretty uncontroversial for this group: (1) explicit race- and sex-based quotas are bad and violate the Constitution and (2) SEC cannot use a highly generalized and circumscribed grant of authority to intrude upon an area traditionally regulated by state law and in service of an agenda of restructuring society in the agency's own social-justice-minded image (while violating the Constitution in the process).

We will be able to accept sign-ons until **December 27 at 5pm Eastern**. Please let us know if you have any questions or would like to discuss any of this.

Sincerely,
Drew

Hi all,

Attached is our draft amicus brief in support of the challenges to the SEC/Nasdaq Quota Rule. Please let us know any questions or suggestions that you have. Given the outrageousness of SEC's adoption of explicit race- and sex-based quotas for Nasdaq-listed companies, we are hopeful that we can have a broad coalition here.

Hi all,

Thanks to everyone that joined our brief. We ended up with 17 states, which is a fantastic showing. Here is an as-filed copy for your records.

Sincerely,
Drew

Hi all,

Here is a very slightly updated version of the amicus brief supporting the challenges to SEC's/Nasdaq's explicit race- and sex-based quotas, and last call for sign-ons.

Thanks to everyone that has joined so far. We are currently at 8 states: Arizona, Alabama, Alaska, Arkansas, Louisiana, Mississippi, Montana, and South Carolina.

We can accept sign-ons until **tomorrow, Monday, December 27 at 5pm EST**. Please also let us know if you have any questions, concerns, or edits.

Sincerely,
Drew

Subject: Re: Amicus Brief Supporting Challenge to NASDAQ Race- and Sex-Based Quotas

Hi all,

Attached is a slightly updated version of the Fifth Circuit amicus brief for the Nasdaq/SEC Quota Rule challenge. So far Alaska, Arkansas, and Montana have joined.

Basically, the brief makes two points that are probably pretty uncontroversial for this group: (1) explicit race- and sex-based quotas are bad and violate the Constitution and (2) SEC cannot use a highly generalized and circumscribed grant of authority to intrude upon an area traditionally regulated by state law and in service of an agenda of restructuring society in the agency's own social-justice-minded image (while violating the Constitution in the process).

We will be able to accept sign-ons until **December 27 at 5pm Eastern**. Please let us know if you have any questions or would like to discuss any of this.

Sincerely,
Drew

Do not click links or open attachments unless you know they are safe. *****</p> <p>Friends,</p> <p>I write to request amicus assistance in a case in which plaintiffs seek to literally rewrite the Constitution. The case involves the Equal Rights Amendment, which states that "[e]quality of rights under the law shall not be denied or abridged by the United States or by any State on account of sex." When Congress proposed it to the States in 1972, the amendment failed. Congress's proposing resolution gave the States only seven years to ratify; but when seven years were up, only 35 States had voted to ratify—three short of the three-fourths supermajority required by the Constitution. And five of those States voted to rescind their ratifications. Everyone thus assumed that the ERA had failed, and that Congress and the States would have to start from scratch if they wanted to add it to the Constitution.</p> <p>But a few years ago, activists began pushing the idea that the 7-year deadline was inoperative and that if three more States ratified the ERA, it would be added to the Constitution. Between 2017 and 2020, Nevada, Illinois, and Virginia "ratified" the amendment, and then sued to have it added to the Constitution. Alabama, Louisiana, Nebraska, South Dakota, and Tennessee intervened to oppose their efforts. We won at the D.C. District Court (our D.Ct. brief is attached), and the case is now before the D.C. Circuit.</p> <p>As the attached memo explains in more detail, there are several different arguments from amici States that could be helpful, whether your State ratified the ERA, never ratified it, or ratified and rescinded (Kentucky and Idaho). We'd love to have a strong showing, particularly after 18 States and DC filed a brief supporting the plaintiffs. The stakes are high, as the ERA could be wielded by courts to invalidate numerous State laws. Thank you for your consideration.</p> <p>Best, Eddie</p> <p><u>Edmund LaCour</u> Solicitor General Office of Alabama Attorney General Steve Marshall Direct: 334-353-2196 Fax: 334-353-8400</p> <p>Confidentiality Notice: The information contained in this email and the documents attached hereto contain confidential information intended only for the use of the intended recipients. Happy Friday everyone. We've decided to push our amicus filing until next week Tuesday to give everyone more time to join. So please let us know if you'd like to join by **Tuesday, January 25 at noon**. To recap the brief – voting-rights plaintiffs shouldn't be allowed to take insufficient section 2 results allegations and just claim "discriminatory purpose" in order to survive a motion to dismiss. We'd like to make a strong showing in support of Arizona on this one, so let me know if you have any questions or concerns about the brief. Thanks!

Subject: Draft States Amicus Brief - Mi Familia Vota v. Hobbs

Hello all,

I've attached a draft States amicus brief in support of Arizona's motion to dismiss in its most recent voting litigation concerning two laws: (1) requiring missing signatures on mail-in ballots to be provided by election day; and (2) removing voters from the early voting list such that they no longer automatically receive mail-in ballots if they don't vote for two cycles and fail to respond when asked if they wish to remain on the list. Plaintiffs have not brought a section 2 results claim, but only a discriminatory-purpose claim and an undue-burden claim. Our amicus brief focuses on the purpose claim and highlights the need for adequate allegations of invidious purpose, the presumption of legislative good faith, and the discovery burdens that await if the motion to dismiss is denied.

We'd like to file this on Friday, so please let me know if you'd like to join by **noon (CT) on Friday, January 21**. Thank you!

EPA Seeks To Measure EJ Progress But May Need To 'Improve' Authority
 The director of EPA's Office of Environmental Justice (OEJ), says the agency is planning to begin aggressively measuring its progress in meeting environmental justice (EJ) goals using first-time metrics required by the upcoming strategic plan, but that if there is not adequate progress by 2026 officials may have to consider asking Congress for new authority.

Split On 'Recycling,' Paper, Chemical Sectors Fight Over EPA Pyrolysis Rules
 The paper industry is opposing the chemical sector's push for EPA to exempt the thermal processes pyrolysis and gasification from strict Clean Air Act incineration rules, charging that labeling the processes as "recycling," as chemical companies seek for plastics, would set an adverse precedent and create a competitive advantage for plastics. ACC Urges 'Transparent' Review Of Cumulative Risk Guide For TSCA Use
 The American Chemistry Council (ACC) is warning EPA's chemicals chief to seek new input of its long-awaited cumulative risk guidance -- through independent peer review and public comments -- before applying its principles to TSCA chemical evaluations, saying the agency's contractor-led review was not "transparent" enough for such a major policy shift. OUTLOOK 2022

Below is today's featured content from *Inside EPA's Outlook 2022*, a special report on the year ahead for environmental and climate change policy and the numerous tests -- legal, political, and technical -- the Biden administration will face as it advances its ambitious agenda at EPA and other agencies.

CEQ Faces Dueling Goals: Tighten NEPA Rules, Speed Priority Projects

The Biden administration is facing dueling goals in 2022 as it works to strengthen National Environmental Policy Act (NEPA) implementing rules and other policies that were scaled back by Trump officials while still meeting its goals to speed low-carbon and other priority projects, many of which will be funded by congressional infrastructure bills.

OUTLOOK 2022

Below is today's featured content from *Inside EPA's Outlook 2022*, a special report on the year ahead for environmental and climate change policy and the numerous tests -- legal, political, and technical -- the Biden administration will face as it advances its ambitious agenda at EPA and other agencies.

EPA Readies Key Risk Guides To Drive EJ Agenda But Faces Steep Hurdles

EPA is slated to issue landmark guidance in 2022 for assessing cumulative risks and disparate impacts, measures that will finally lay down markers for risk assessors and regulators to assess multiple exposures on vulnerable groups when issuing permits and making other decisions that have historically been limited to consideration of direct effects.

After Appellate Review, High Court May Again Weigh Climate Nuisance Suits

After the Supreme Court last year directed appellate courts to conduct more rigorous reviews of whether a raft of climate change nuisance cases should be heard in state or federal courts, observers are widely expecting the high court to again grapple with the litigation after the lower courts re-assess the crucial jurisdiction issues.

Early WOTUS Comments Underscore Difficult Path To 'Durable' CWA Rule

Early comments to EPA and the Army Corps of Engineers on their proposal to rewrite the Clean Water Act (CWA) definition of waters of the United States (WOTUS) illustrate the challenge facing the Biden administration's goal of crafting a "durable" WOTUS standard, as stakeholders are already setting out diametrically opposed views of the proposal.

Environmentalists Frustrated With EPA's Slow Pace On Repealing Trump Rules

As the Biden administration passes its one-year mark, environmentalists are expressing growing frustration with the slow pace of EPA's efforts to repeal and replace what they say are highly problematic Trump-era rules and guidance documents, even as they acknowledge that some delays are due to the White House rather than the agency. EPA Plans To Reject Industry Petition To Ease Disposal Of Railroad Ties

EPA is proposing to reject the timber and paper industry's petition to further ease limits on the use of railroad ties and paper residuals as "fuel," rather than more tightly regulated "waste," but is offering, as an alternative option, to widen the definition of paper recycling residuals (PRR) considered to be non-waste fuel.

Earlier this week, the application of Bakken Energy for a grant and loan to support the project was endorsed by the Clean Sustainable Energy Authority, and will be coming before the Industrial Commission next week. After listening to the orchestrated presentation of Bakken Energy, and the ensuing discussion with the CSEA board, our coal county members still have many unanswered questions. Please consider these as you ponder a decision at next week's Industrial Commission meeting:

1. Bakken Energy proposes to use 175 million cubic feet of natural gas per day to produce hydrogen. How will the product be transported to market? Is Bakken proposing to construct an ammonia pipeline? Where would it go and what is the timeline/likelihood for permitting? If not a pipeline, how will that volume of product be transported?
2. Basin Electric said it has been losing money at the synfuels plant due to low natural gas prices. But prices have increased significantly in recent months. Is the plant once again profitable producing syngas from coal? If the plant is profitable in the next three years of operation, how does it affect the plan to produce hydrogen?
3. Federal grant guidelines generally require local support for a project, but Bakken Energy has not met with the CCCA membership to answer their questions. Why hasn't that meeting occurred?
4. It appears this project is heavily dependent on federal grants and loans from DOE. Will the parties, Bakken Energy and Mitsubishi (which is a \$5.2 trillion company), proceed with the project if it fails to receive federal support?
5. If the project depends on federal support that may or may not be received, is it premature for the State of North Dakota to make a financial commitment at this time? Should the decision of the Industrial Commission be postponed until there is more certainty about project funding?

Thank you for your consideration.

Do not click links or open attachments unless you know they are safe. *****</p> <p>State Attorney Generals and State Solicitor Generals,</p> <p>It is with a heavy heart that I am compelled to reach out to each and every one of you.</p> <p>Our nation is in the throws of a Global PLANDemic which Dr. David Martin lays out in this 5 page document. He lists 8 counts of criminal conspiracies against we the people of the United States.</p> <p>If you happen to be an Attorney General with a Conscience and you actually take your Oath of office seriously to protect the Constitution Against ALL Enemies Foreign and DOMESTIC then you must read his brief against Mr. Alex Azar, Dr. Anthony Fauci, Dr. Peter Daszak, Dr. Ralph Baric, FDA, CDC, NIAID, Moderna and Pfizer.</p> <p>We are witnessing a Global Genocide unfold right before our eyes. The COVID is a bioweapon and the bioweapon is the injection and now they are going after all the children. The kids that have taken this injection are having heart issues, heart attacks, flat out dying days or weeks after getting injected or having serious life altering adverse reactions that NEVER had to happen. Before the injection they were normal healthy, active children but not so afterwards.</p> <p>Dr. Sanja Gupta caught on live TV coercing young children to get the jab using Big Bird. Coercing is against the Nuremberg Code. All masks, testing and injecting is against the Nuremberg Code because it's all experimental. Why aren't people being held accountable?</p> <p>https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2F&data=04</p> <p>The government data system VAERS has reported over 20,000 people who have died and over 1 million adverse reactions and only 1%-10% actually gets reported to that system so those numbers are way higher.</p> <p>https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fbrandnewtube.com%2Fwatch%2Ffihearings-ron-johnson-039-s-expert-panel-on-covid-vaccine-injuries-RJogrA87bWROhRG.html%3Fland%3Dtype&data=04%7C01%7CWstenehjem%40nd.gov%7C404458</p> <p>Senator Ron Johnson held a panel where he spoke with doctors, researchers and people who have been forever harmed and debilitated or know of people who died after getting the injections. So far, nobody has done anything to stop this genocide. The healthiest young athletes are dropping dead all over the world, especially soccer players, but also football players. Others like the man who could hold his breath for 10 minutes underwater their careers have ended. There are videos of news reporters literally dropping dead live while airing the news from other countries. All these people dying, all took the bioweapon injections.</p> <p>Our government has been weaponized against We The People and WE KNOW IT. Out of 50 states there has to be some Attorney Generals out there that will do what needs to be done to put a stop to this madness.</p> <p>Dr. Mike Yeadon worked for Pfizer for 30 years and he has confirmed it is 100% genocide. Dr. Robert Malone, inventor of the mRNA technology has also stated it is genocide. World renowned cardiologist doctor Peter McCullough has been sounding the alarm as well. America's Frontline Doctors have been on the cutting edge of all this since the beginning, yet everyone ignores them and only the propaganda gets pushed out to the public.</p> <p>Quoted from: https://gcc02.safelinks.protection.outlook.com/?url=http%3A%2F%2Fwww.citizensjournal.us%2Fholocaust-survivor-warns-covid-19-measures-similar-to-nazi-germanys-subjugation-</p> |

| Body | <p>policies%2F&data=04%7C01%7CWstenehjem%40nd.gov%7C404458244c2643f0168e08d9d33543c5'</p> <p>Vera Sharav, is a Romanian-born Holocaust survivor and she has warned that the COVID-19 measures are similar to Nazi Germany's Subjugation Policies. She see's a lot of parallels between the narrative being used to justify COVID-19 measures such as lockdowns and the narrative employed by the Nazis in Germany to justify the subjugation of other people.</p> <p>She also stated the similarities between how many physicians and other healthcare workers today and in Nazi Germany became instrumental in harming a lot of people. Specifically, Sharav pointed to how doctors during the lead-up to the Nazi takeover of Germany were used to justify eugenics using the Darwinian idea of "survival of the fittest." She went on to state "What happens with a public health policy is that public health officials decide who shall live and who shall die." She explained that this kind of mentality - that the government should get to decide who lives and dies - eventually led to the Holocaust. She goes on to state it is "nonsense" for these doctors to suggest that the right thing to do is sacrifice the rights of individuals in pursuit of a so-called greater good. She mentioned this in reference to the mainstream acceptance of lockdowns.</p> <p>"As public officials, they talk about the greater good. Who has the authority to decide what is the greater good? Said Sharav. "If the individuals are oppressed or relegated to third-class citizens...what kind of society is it?" Governments all over the world have used the pandemic and the fear of getting infected as a major weapon. She argued that this has prevented people from thinking critically. Instead, people are taught to distrust other people and to isolate themselves from their communities. Instead of thinking critically, people are being taught to blindly trust public health officials and so-called experts.</p> <p>"Hitler then, as rulers now, deferred to the health officials said Sharav. "We are constantly being told, "We are following the science. She warned that this will eventually lead to the "complete overthrow of human civilization".</p> <p>Think about that story for a moment. This is from a woman who actually survived the Holocaust, She knows what she is talking about because she lived through it and survived it and she is now telling us it is happening again all over the world and what are our US authorities doing, in our nation? NOTHING except allowing it to happen.</p> <p>I ask each and everyone of you which side of history do you wish to fall upon? You only have two choices. You either act to stop this and fall on the correct side of history or you do nothing and fall on the wrong side of history. History always comes to pass and history will tell the story of who did what and why. You all have a chance to band together and go down in history as the Attorney Generals who stopped this genocide.</p> <p>This PLANdemic will dwarf the WWII holocaust by the time it's all said and done. The time to act is NOW.</p> <p>Dr. David Martin has also followed all the US Patents and he can show you all how it was truly planned out years ago.</p> <p>In the end, we must all account for our actions in front of The God of Abraham, Isaac and Jacob whether you believe in God or not. I hope and pray that you all are up to the task at hand and for those of you that choose to stand against this evil The Lord will protect and guide you. Many times, George Washington stated that he should have died but he knew he was protected by Providence which means divine guidance or care.</p> <p>God Bless each and everyone of you. I pray you all do the right thing.</p> <p>Michelle Austin</p> |

State Attorney Generals and State Solicitor Generals,

It is with a heavy heart that I am compelled to reach out to each and every one of you.

Our nation is in the throws of a Global PLANdemic which Dr. David Martin lays out in this 5 page document. He lists 8 counts of criminal conspiracies against we the people of the United States.

If you happen to be an Attorney General with a Conscience and you actually take your Oath of office seriously to protect the Constitution Against ALL Enemies Foreign and DOMESTIC then you must read his brief against Mr. Alex Azar, Dr. Anthony Fauci, Dr. Peter Daszak, Dr. Ralph Baric, FDA, CDC, NIAID, Moderna and Pfizer.

We are witnessing a Global Genocide unfold right before our eyes. The COVID is a bioweapon and the bioweapon is the injection and now they are going after all the children. The kids that have taken this injection are having heart issues, heart attacks, flat out dying days or weeks after getting injected or having serious life altering adverse reactions that NEVER had to happen. Before the injection they were normal healthy, active children but not so afterwards.

Dr. Sanja Gupta caught on live TV coercing young children to get the jab using Big Bird. Coercing is against the Nuremberg Code. All masks, testing and injecting is against the Nuremberg Code because it's all experimental. Why aren't people being held accountable?

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fopenvaers.com%2F&data=04>

The government data system VAERS has reported over 20,000 people who have died and over 1 million adverse reactions and only 1%-10% actually gets reported to that system so those numbers are way higher.

<https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fbrandnewtube.com%2Fwatch%2Fhearings-ron-johnson-039-s-expert-panel-on-covid-vaccine-injuries-RJogrA87bWROhRG.html%3Fidand%3Dtype&data=04%7C01%7CWstenehiem%40nd.gov%7C404458;>

Senator Ron Johnson held a panel where he spoke with doctors, researchers and people who have been forever harmed and debilitated or know of people who died after getting the injections. So far, nobody has done anything to stop this genocide. The healthiest young athletes are dropping dead all over the world, especially soccer players, but also football players. Others like the man who could hold his breath for 10 minutes underwater their careers have ended. There are videos of news reporters literally dropping dead live while airing the news from other countries. All these people dying, all took the bioweapon injections.

Our government has been weaponized against We The People and WE KNOW IT. Out of 50 states there has to be some Attorney Generals out there that will do what needs to be done to put a stop to this madness.

Dr. Mike Yeadon worked for Pfizer for 30 years and he has confirmed it is 100% genocide. Dr. Robert Malone, inventor of the mRNA technology has also stated it is genocide. World renowned cardiologist doctor Peter McCullough has been sounding the alarm as well. America's Frontline Doctors have been on the cutting edge of all this since the beginning, yet everyone ignores them and only the propaganda gets pushed out to the public.

She see's a lot of parallels between the narrative being used to justify COVID-19 measures such as lockdowns and the narrative employed by the Nazis in Germany to justify the subjugation of other people.</p> <p>She also stated the similarities between how many physicians and other healthcare workers today and in Nazi Germany became instrumental in harming a lot of people. Specifically, Sharav pointed to how doctors during the lead-up to the Nazi takeover of Germany were used to justify eugenics using the Darwinian idea of "survival of the fittest." She went on to state "What happens with a public health policy is that public health officials decide who shall live and who shall die." She explained that this kind of mentality - that the government should get to decide who lives and dies - eventually led to the Holocaust. She goes on to state it is "nonsense" for these doctors to suggest that the right thing to do is sacrifice the rights of individuals in pursuit of a so-called greater good. She mentioned this in reference to the mainstream acceptance of lockdowns.</p> <p>"As public officials, they talk about the greater good. Who has the authority to decide what is the greater good? Said Sharav. "If the individuals are oppressed or relegated to third-class citizens...what kind of society is it?" Governments all over the world have used the pandemic and the fear of getting infected as a major weapon. She argued that this has prevented people from thinking critically. Instead, people are taught to distrust other people and to isolate themselves from their communities. Instead of thinking critically, people are being taught to blindly trust public health officials and so-called experts.</p> <p>"Hitler then, as rulers now, deferred to the health officials said Sharav. "We are constantly being told, "We are following the science. She warned that this will eventually lead to the "complete overthrow of human civilization".</p> <p>Think about that story for a moment. This is from a woman who actually survived the Holocaust, She knows what she is talking about because she lived through it and survived it and she is now telling us it is happening again all over the world and what are our US authorities doing, in our nation? NOTHING except allowing it to happen.</p> <p>I ask each and everyone of you which side of history do you wish to fall upon? You only have two choices. You either act to stop this and fall on the correct side of history or you do nothing and fall on the wrong side of history. History always comes to pass and history will tell the story of who did what and why. You all have a chance to band together and go down in history as the Attorney Generals who stopped this genocide.</p> <p>This PLANdemic will dwarf the WWII holocaust by the time it's all said and done. The time to act is NOW.</p> <p>Dr. David Martin has also followed all the US Patents and he can show you all how it was truly planned out years ago.</p> <p>In the end, we must all account for our actions in front of The God of Abraham, Isaac and Jacob whether you believe in God or not. I hope and pray that you all are up to the task at hand and for those of you that choose to stand against this evil The Lord will protect and guide you. Many times, George Washington stated that he should have died but he knew he was protected by Providence which means divine guidance or care.</p> <p>God Bless each and everyone of you. I pray you all do the right thing.</p> <p>Michelle Austin</p> |

NEW: Treasury Issues Final Rule for State & Local Fiscal Recovery Funds Program to Support the Ongoing COVID Response

U.S. Department of the Treasury

Office of Public Affairs
Press Release

FOR IMMEDIATE RELEASE
January 6, 2022

The final rule enables state and local governments to meet immediate pandemic response needs and promote long-term recovery.

WASHINGTON — Today, the U.S. Department of the Treasury issued the Final Rule for the State and Local Fiscal Recovery Funds (SLFRF) program, enacted as a part of the American Rescue Plan, which delivers \$350 billion to state, local, and Tribal governments to support their response to and recovery from the COVID-19 pandemic.

The SLFRF program ensures governments have the resources needed to respond to the pandemic, including providing health and vaccine services, supporting families and businesses struggling with the pandemic's economic impacts, maintaining vital public services, and building a strong and equitable recovery.

To date, Treasury has distributed more than \$245 billion to state, local, and Tribal governments as a part of the SLFRF program, accounting for over 99% of funds eligible to be disbursed in 2021 — including funds to many communities that had not received federal assistance since the onset of the pandemic. Recipients of funds were encouraged to begin using funds under the interim final rule, which was released in May 2021. Governments have been spending these funds to [address](#) the COVID-19 pandemic and its economic effects, including by expanding access to testing, vaccines, and taking other steps to protect their communities including those that are high-risk and underserved. A [recent analysis](#) by the Center on Budget and Policy Priorities found that state governments have appropriated nearly 70% of their available funds as of November 2021.

“Through the State and Local Fiscal Recovery Funds, the American Rescue Plan has provided state and local governments with the support they need to respond to the ongoing pandemic and plan for an equitable recovery,” said Deputy Secretary of the Treasury Wally Adeyemo. “As the Delta and Omicron variants have illustrated, pandemic response needs will continue to evolve. These funds ensure that governments across the country have the flexibility they need to vaccinate their communities, keep schools open, support small businesses, prevent layoffs, and ensure a long-term recovery.”

The final rule — which takes effect on April 1, 2022 — provides state and local governments

This includes clarifying that recipients can use funds for certain capital expenditures to respond to public health and economic impacts and making services like childcare, early education, addressing learning loss, and affordable housing development available to all communities impacted by the pandemic. • Second, Treasury has expanded support for public sector hiring and capacity, which is critical for the economic recovery and in maintaining vital public services for communities. • Third, Treasury has streamlined options to provide premium pay for essential workers, who bear the greatest health risks because of their service in critical sectors. • Fourth, Treasury has broadened eligible water, sewer, and broadband infrastructure projects – understanding the unique challenges facing each state and locality in delivering clean water and high-speed broadband to their communities. • In addition to these expansions, Treasury has greatly simplified the program for small localities – many of whom have received a historic federal investment in their communities through this program – including through the option to elect a standard allowance for revenue loss rather than calculating revenue loss through the full formula. <p>Click here to view the final rule text. ORGANIZED RETAIL CRIME WORKING GROUP MEETING

Monday, January 31, 2022
1:00pm CST

The ORC Working Group is a joint public and private partnership created to combine efforts and help share information including best practices, law enforcement strategy, legislative initiatives, current trends and statistical data. These discussions are intended to foster and strengthen cooperation among State Attorneys General, their staff, and private businesses.

This first virtual meeting of the ORC Working Group is an informative discussion with our retail partners regarding educational endeavors dedicated to targeting organized retail crime enterprises.

Join Illinois Attorney General Kwame Raoul and Georgia Attorney General Chris Carr for an open dialogue into this crucial issue.

Please Register Here

Registration for virtual meeting is open and available.
For more information contact Patricia Salazar at PSalazar@agalliance.org.

Safe Meeting Protocols

We are committed to providing a safe, enjoyable environment for all attendees. As such, AGA has put in place the following preventative measures to reduce the spread of COVID-19:

1. As a voluntary initiative to enhance the safety of our event, all attendees are asked to take a COVID test at least three days prior to traveling to Avon, Colorado. While you will not be required to share your test results, AGA staff may assist with timely travel cancellations.
2. In an effort to reduce the possibility of exposing a colleague or loved one to the virus, all attendees will receive a rapid antigen detection test for COVID-19 upon arrival. Attendees are requested to immediately self-test upon hotel check-in. Attendees are then asked to apply individual-level responsibility and a strong sense of civism regarding their rapid test result. Attendees may voluntarily share test results with AGA staff to assist with quarantine or isolation procedures.

***No testing information will be requested nor collected by the AGA.**

However, if you don't feel well or show any symptoms of COVID-19, please stay safely at home.

Out-of-state visitors react to their first North Dakota winter

With daily temperatures near or below zero, some seasoned North Dakotans may be used to it, but that's not the case for everyone. Chances are if you went outside today, you've seen snow. North Dakota is known for its unforgiving winters, with cold temperatures and even colder winds.

Apparently a bit ago the Williston School Board held an executive session. Some school board members leaked some info about the meeting to Tom. He ran the story on Williston Trending Topics and on Facebook. Last night, while at another school board meeting in the school office, BCI agent Chrissa Remus showed up with a search warrant for Tom's phone signed by Judge Johnson and seized his phone. She said she was authorized by the warrant to search his phone to identify who leaked the info. The AP just called about it. This could be a start of a firestorm. The warrant is a violation of our shield law for a start, and I'm not sure how BCI gets involved with school board matters? Can you check on this?</p> <p><i>Jack McDonald</i> WHEELER WOLF LAW FIRM Box 1776 Bismarck, ND 58502-1776 Ph: 701-751-1776; Fx: 701-751-1777 jackmcdonald@wheelerwolf.com</p> |

She said she was authorized by the warrant to search his phone to identify who leaked the info. The AP just called about it. This could be a start of a firestorm. The warrant is a violation of our shield law for a start, and I'm not sure how BCI gets involved with school board matters? Mary Kelsch has addressed this issue with the board member you refer to, and I asked her about it.</p> <p>Here is what she said:</p> <p>"He was not a board member at the time of the executive session. The recording is exempt so it could be released to him if the board votes to release it to him. I believe he made a motion at a board meeting to listen to it and they voted NOT to release the recording to him."</p> <p>I hope this helps answer your question</p> <p>Wayne</p> <hr/> <p>From: Lee, Judy E. <jlee@nd.gov> Sent: Thursday, December 9, 2021 8:51 PM To: Stenehjem, Wayne K. <wstenehjem@nd.gov>; Seibel, Troy T. <tseibel@nd.gov> Subject: open records question</p> <p>Are the records of Board of Higher Education meetings subject to open records requirements? How about executive session minutes?</p> <p>The BHE will not even let the new Board member listen to the recording of the June 30 meeting, when 2 Presidents were sent packing, although his term began July 1.</p> <p>Senator Judy Lee</p> <p>\$44-04-18.6</p> <p>Email: jlee@nd.gov</p> |

Jodi and Tom,
Do either of you have any comments or recommendations on this proposed letter?
I note this, or a similar letter, is being circulated to State Treasurers around the country.
Wayne
N.B. the short turn-around on this letter.

The Attorney General approved the draft on November 3, 2021.</p> <p>Since that time, Minnkota has expressed concern with subsection 11.4 that would permit the Board to unilaterally and immediately terminate the Agreement in the event that Minnkota allows a lapse of insurance coverage. Also attached is an inducement letter providing for additional payment as a condition to executing the Easement Agreement. We are again asking for the Attorney General's approval of this Agreement as revised.</p> <p>Respectfully,</p> <p>James J. I hope this means that you and Beth will have even greater opportunities for interesting travel. Congratulations on your long and honorable service to the state.</p> <p>I reach out today because I am leading a work group to rewrite our court rule relating to open records (Admin. Rule 41). You may recall that about two years ago we amended this rule and implemented a policy of greater remote public access of court records that had been to that point available only in person at court houses. For a variety of reasons, that public access under the amended rule was suspended. Our Court Services Administration Committee spent more than a year working on another approach to these issues. Unfortunately, I believe the result of that effort did not leave us with a viable rule to manage access to records within the judicial branch.</p> <p>I have been working on a draft rule for consideration by the Supreme Court that would closely track the open records provisions in Chapter 44-04, in many cases by expressly incorporating those procedures by reference. As you are probably aware, Chapter 44-04 expressly excludes from the definition of "record" any documents in the possession of a court. This carve-out recognizes that the Court has authority to provide by rule for management of judicial records. I think the public should have a more consistent experience in terms of cost, response time, administrative procedure, etc whether records are requested from the executive branch or the judicial branch.</p> <p>I explain all this to you to ask if you would recommend someone in your office having knowledge and experience with our open records laws to participate in 2-3 meetings over the course of the next 3 months or so. I think the statutory procedures for requests, costs, response time, search and collection, and many of the exemptions and confidentiality exclusions are well crafted and would work well for court records. If this project leads where I believe it will, the court, and eventually the public, would benefit from your office's expertise in this area as we re-write our open records rule to harmonize it with Chapter 44-04.</p> <p>Thank you for your assistance with this and please let me know if your office has someone willing and able to assist us with this.</p> <p>You can also reach me on my cell phone at NDCC §44-04-18.3 if you'd like to discuss further.</p> <p>Jerod</p> <p>Jerod E. I spoke with NFIB. They are happy to divide time, though we postponed the precise division until tomorrow.

I will plan on arguing this, absent any objections

Subject: RE: OSHA ARGUMENT SCHEDULED FOR 1/7

I spoke with NFIB. They are happy to divide time, though we postponed the precise division until tomorrow.

I will plan on arguing this, absent any objections

No. 2012-CV-00038</p> <p>I received the \$125 filing fee and the Notice of Appeal in this matter which was filed on January 25, 2022. I am enclosing a receipt for the filing fee. This letter, along with the attached copy of the Notice of Appeal, will serve as the required notice under N.D.R.App.P. 3(d). This letter, the notice of appeal, any order for transcript(s), and the enclosed declaration of service will be filed in Odyssey.</p> <p>The clerk of the trial court shall certify the record on appeal to my office by March 26, 2022.</p> <p>The file indicates that a transcript has been ordered in this matter. When the order for transcript(s) is transmitted to the Court Reporter or Recorder by the Clerk of District Court, we will provide a deadline for the transcript.</p> <p>It appears transcripts have not been ordered for every party. I trust all parties who can make an appearance in this appeal have been included in the Order for Transcript. If you have not done so, an amended order for transcript should be filed no later than January 28, 2022.</p> <p>I note that in prior appeals of this case, several of the parties did not participate. If you are not participating, please notify our office and we will discontinue sending correspondence to you.</p> <p>All correspondence in this matter will be made by e-mail, including forwarding a copy of any orders or opinions filed. If we do not have an e-mail address for a party, all correspondence will be sent by U.S. Mail.</p> <p>Sincerely,</p> <p>/s/ Sarah Erick Deputy Clerk North Dakota Supreme Court</p> <p>attachments</p> <p>cc: David P. There were 801 FHA servicers nationwide.</p> <p>The ranking system measures FHA servicer compliance with guidelines and intervention requirements, loss mitigation engagement, and reporting. The intention of the ranking is to protect borrowers and alert HUD to potential problems. A high work-out ratio shows a servicer's effectiveness in working with delinquent borrowers to keep them out of foreclosure. The National Servicing Center has ranked NDHFA a Tier 1 servicer for four years running.</p> <p>NDHFA has serviced its own mortgage loans for 30 years. The agency also services loans for Bank of North Dakota and local nonprofit housing providers.</p> <p>A self-supporting and mission-driven agency, NDHFA is dedicated to making housing affordable for all North Dakotans. Good Afternoon, Liz –

ERISA does not apply to our retirement plans except in limited circumstances, most of which involve requirements to maintain our plans' tax qualified status. While we would look to ERISA or ERISA case law in the absence of a specific state statute or case on a given topic, that, again, would typically be in regard to tax qualification issues rather than general investment guidelines. As such, I do not know that the proposed rule change would directly impact our plans or the investment of their monies.

Unfortunately, I do not have any historical knowledge on whether the NDPERS Board has previously endorsed or prohibited ESG considerations generally. When I was the SIB's attorney a lifetime ago, the SIB was opposed to ESG requirements because of the prudent investor rule and the exclusive benefit rule.

From a public pension industry perspective, I believe the contemplation of certain ESG considerations has become accepted as legitimate business and economic concerns, including some of those related to the topics on page 5 of the proposed letter. Nonetheless, neither the act of prohibiting nor the act of requiring those considerations would seem to be prudent. At the end of the day, I would argue the prudent investor rule and the exclusive benefit rule should be the guide, rather than a blanket requirement. That would, of course, require appropriate documentation of the evaluation and decision-making process.

Have a great weekend,

Scott

Liz,

I have little to add to Scott's response. One line in the brief I think best summarizes this issue and that is differentiating between making ESG factors determinative v. informative (cited below).

Much research has supported an argument that failure to consider such factors may not be prudent, but requiring that such factors be a determining factor in investment decision making runs contrary to the exclusive benefit rule. This rule is memorialized in several places in North Dakota Century Code and most recently with the passing of S.B.2291 (2021), and now found in NDCC 21-10-08.1. In short I fully concur with Scott that any ruling either prohibiting or requiring such considerations would be cause for concern and run contrary to generally accepted law surrounding a fiduciaries duty of prudence and loyalty.

From brief:

"In making ESG factors *determinative* rather than *informative*, the Proposed Rule breaks from the core, established, and essential fiduciary duty of prudence and loyalty to employees and beneficiaries under ERISA and confuses that clarity with competing duties of social policy engineering."

Subject: RE: From Wayne -- FW: ERISA ESG Comment Letter -- Deadline 12/13 at 6 pm ET

Good Afternoon, Liz --

ERISA does not apply to our retirement plans except in limited circumstances, most of which involve requirements to maintain our plans' tax qualified status. While we would look to ERISA or ERISA case law in the absence of a specific state statute or case on a given topic, that, again, would typically be in regard to tax qualification issues rather than general investment guidelines. As such, I do not know that the proposed rule change would directly impact our plans or the investment of their monies.

Unfortunately, I do not have any historical knowledge on whether the NDPERS Board has previously endorsed or prohibited ESG considerations generally. When I was the SIB's attorney a lifetime ago, the SIB was opposed to ESG requirements because of the prudent investor rule and the exclusive benefit rule.

Body

From a public pension industry perspective, I believe the contemplation of certain ESG considerations has become accepted as legitimate business and economic concerns, including some of those related to the topics on page 5 of the proposed letter. Nonetheless, neither the act of prohibiting nor the act of requiring those considerations would seem to be prudent. At the end of the day, I would argue the prudent investor rule and the exclusive benefit rule should be the guide, rather than a blanket requirement. That would, of course, require appropriate documentation of the evaluation and decision-making process.

Have a great weekend,

Scott

The letter argues that these investments are often misleading and administratively costly and should not be encouraged. The administration also does not provide justification for departure from the current rules that went into effect early 2021. The current rules clarify that only pecuniary factors can be considered when investing. I apologize for the short turnaround but we need joins by Monday December 13 at 6 pm ET. Also, please note that we worked with our state Treasurer on this letter. He is circulating to treasurers from other states to see if they would like to add their signatures. We welcome any feedback and if you have any questions or concerns, please do not hesitate to contact me.</p> <p>Thanks, Melissa</p> <p>Melissa A. According to the CDC information, for testing to return to the USA: if your FIRST flight in your trip is delayed past the 1-day limit of testing due to a situation beyond your control (e.g. delays because of severe weather or aircraft mechanical problem) and that delay is **24 hours** or less past the 1-day limit for testing, you do not need to be retested. If the delay is more than **24 hours** past the 1-day limit, then you will need to be retested. See: https://www.cdc.gov/coronavirus/2019-ncov/travelers/testing-international-air-travelers.html#anchor_1635127083. (emphasis in original)

Very well.
Perhaps you can find out the answer to this question:
We are required to have a negative COVID test within 24 hours to fly home.
We got the tests [all negative] but now our flight leaves tomorrow at 3:40pm, 24 hours later.
Do we have to have another test today to fly?
[the Delta app is useless, and the wait for a phone call is 688 minutes]
Can you find the answer for us somewhere?
Signed,

Perhaps you can find out the answer to this question:
We are required to have a negative COVID test within 24 hours to fly home.
We got the tests (all negative) but now our flight leaves tomorrow at 3:40pm, 24 hours later.
Do we have to have another test today to fly?
[the Delta app is useless, and the wait for a phone call is 688 minutes]
Can you find the answer for us somewhere?
Signed,
Exasperated in Montego Bay

As you can see, our flight home for today has been cancelled.
We are now scheduled for tomorrow instead, so it looks like I will not be in the office tomorrow.
I have that one opinion that Ally says must be out before next week so I will be working on that today.
Let me know if there's anything else I need to do before the end of the year.

Hi Alice,

Do you think Wayne would be willing to participate in this? If so, would you mind asking him?
Thanks!

I am writing to invite you to be featured in our paralegal association's (WDALA) newsletter called the *Summons*. The *Summons* is published four times a year (February, May, August, and November) and includes articles that are written by judges, attorneys, paralegals, and others on the subjects of substantive legal issues, court rules, current trends and recent developments, leadership, professional development, career development, mentoring, or articles of general interest to paralegals.

WDALA started a new feature in the *Summons* called "Get to Know Your . . .". This feature is a fun way for our members to learn more about individuals in our legal community and their roles. The first edition of this new feature was published in the November 2021 issue of the *Summons* and we would like to put the spotlight on you for the February 2022 issue.

If you are interested, I have included a list of questions below for you to answer. (**Note:** I will need your responses no later than January 14, 2022). We ask that each participant answer all 5 questions in the first group and pick 5-10 bonus questions of their choice from the second group.

Please let me know if you would be willing to participate in this new piece in our *Summons* newsletter. We would be honored to showcase you in this fun, new feature!

Subject: WDALA: Paralegal/Legal Assistant Association

Hi Alice,

Do you think Wayne would be willing to participate in this? If so, would you mind asking him?
 Thanks!

I am writing to invite you to be featured in our paralegal association's (WDALA) newsletter called the *Summons*. The *Summons* is published four times a year (February, May, August, and November) and includes articles that are written by judges, attorneys, paralegals, and others on the subjects of substantive legal issues, court rules, current trends and recent developments, leadership, professional development, career development, mentoring, or articles of general interest to paralegals.

WDALA started a new feature in the *Summons* called "Get to Know Your . . .". This feature is a fun way for our members to learn more about individuals in our legal community and their roles. The first edition of this new feature was published in the November 2021 issue of the *Summons* and we would like to put the spotlight on you for the February 2022 issue.

If you are interested, I have included a list of questions below for you to answer. (**Note:** I will need your responses no later than January 14, 2022). We ask that each participant answer all 5 questions in the first group and pick 5-10 bonus questions of their choice from the second group.

Please let me know if you would be willing to participate in this new piece in our *Summons* newsletter. We would be honored to showcase you in this fun, new feature!

S/A Kluth responded and assisted with obtaining a search warrant and the eventual search of the house. The decedent was Lorri Prevost, born in 1961 and her husband was William Prevost, born in 56. The wife was feeling sick and apparently fell, hitting her head on the way down. The husband called for an ambulance while dragging his wife out of the home in the meantime. The female was determined deceased by a coroner on scene. There were wounds on the decedent's head that appeared odd but possible. The husband cooperated with law enforcement and the body was taken to a funeral home for the time being. S/A Kluth was going to talk with the ME's office this morning to determine whether an autopsy would be necessary as it appears much of the story matches up, just odd looking wounds on the decedent's head.</p> <p>.Supervisory Special Agent Patrick Lenertz ND Bureau of Criminal Investigation PO Box 1348 Mingot, ND 58702  PJLENERTZ@ND.GOV</p> <hr/> <p>CC lbrocker@nd.gov</p> <p>Attachments image001[14938].gif, image002[14939].jpg</p> |

Tragic loss of a young man.</p> <p>S/A's Troy Kelly and Shawn Banet did a great job with a tough and emotional scene.</p> <p>Thank you,</p> <p>Lonnie Get Outlook for iOS From: Banet, Shawn J. <sbanet@nd.gov> Sent: Saturday, January 8, 2022 11:43 AM To: Grabowska, Lonnie; Miller, Casey J.; Rummel, Arnie; TK427 Subject: Re: LaMoure Co Suicide</p> <p>To add to this I would like to strongly commend the LaMoure Ambulance in going above and beyond their duty by offering to clean up the scene after we were done processing. The whole crew without hesitation cleaned up the biological material and blood so that the family wasn't retraumatized by dealing with the aftermath of their child's suicide. It is truly an honor to work with such great communities that care for one another to that level.</p> <p>Shawn</p> <p>Sent from my iPhone</p> <p>Special Agent Shawn Banet North Dakota Bureau of Criminal Investigation §44-04-18.3 Office: 701-251-2993 From: Banet, Shawn J. Sent: Saturday, January 8, 2022 11:33:37 AM To: Grabowska, Lonnie <lgrabowska@nd.gov>; Miller, Casey J. <cjmiller@nd.gov>; Rummel, Arnie <arummel@nd.gov>; TK427 <tk427@nd.gov> Subject: LaMoure Co Suicide</p> <p>Thursday night S/A Kelly and myself assisted LaMoure County SO with the investigation of a suicide involving a 15 year old juvenile male.</p> <p>Upon arrival we were advised by the Sheriff that the in the evening §12.1-35-03 went to his room locking the door behind himself. After some time his mother Ann went to his door to ask him to come out to play a card game with the family. It was at this point that she discovered that the door was locked. Ann then asked §12.1-35-03 to unlock the door as per their family rules the kids were not allowed to lock their doors. §12.1-35-03 did not respond. Ann went out to the kitchen to let her husband (Brett) know. It was at this time they heard a loud noise. Brett unlocked the door with a screwdriver and discovered §12.1-35-03 laying on the floor on top of his shot gun surrounded by a large pool of blood.</p> <p>Upon interviewing the family I was advised that the family wasn't into hunting or guns but §12.1-35-03 had expressed interest in wanting to start to bird hunt. The parents decided with §12.1-35-03 recent interest they would give him a shot gun for Christmas along with a box of bird shot.</p> <p>Further discussion revealed that §12.1-35-03 was a straight A student and an athlete. No recent break ups or apparent issues with his peers. Wayne,

I've spoke to our supervisor Pat Lenertz and I'm tracking down Charissa now.

As soon as I get a hold of her, I will have her give you a call on your cell number so she can brief you directly. The case is a bit complicated so I figured it's easier if we just have Charissa call you directly and she can answer any questions you may have.

Thank you,

Lonnie

Wayne and Troy,

Please see below and update on a joint narcotics case led by the Fargo task force and partnered with DEA.

The agents and the TF did a great job! The case was quite lengthy and took numerous days of surveillance.

All,

Great job yesterday to everyone with the arrest of MOORE. Below is what was put out DEA-wide from the Omaha Division. This is another great example of the cooperation here, and the greater Community is certainly safer with MOORE off the street.

As always, thank you for the partnerships.

Last night we took the main individual, Joel Quinonez, and his girlfriend, Jaimie Garcia into custody. This involved a very in-depth safety plan due to the intelligence we had that Quinonez was armed and violent. When we confronted Quinonez in a hotel parking lot he attempted to reach for his firearm, but due the safety plan put together by Sgt. Orn, Sgt. Morris, and TFO Kyle Hinrichs, he was not able to retrieve it fast enough. It was a tense moment, but eventually he complied and was taken into custody. We were crammed in our takedown van, and also in the hotel room adjacent to Quinonez's, for approximately 7 hours but in the end it paid off. He had 2 stolen firearms in each pocket, and a 3rd firearm in his backpack. He was also in possession of 2.6 pounds of methamphetamine, 1 oz of heroin, and \$6,121. After he was in custody he made some comments that were also concerning regarding killing whoever "snitched" on him.</p> <p>I would like to commend TFO Hinrichs, as well as the whole team who contributed, to this investigation (Including our Minnesota partners). Many hours went into this investigation. I believe the community is much safer with this individual in jail. I've attached some photos for you to review. This is an ongoing investigation. | Body | <p>Wayne - this hydrogen hub funding is heading to the IC. We started looking into it after the Governor publically supported it in June. I haven't found evidence yet that this isn't just a gift for subsidies that will ever work in ND, and those requests for state funds will ever end on this thing. There is one big NFPA legal issue what hasn't be thought through by anyone on this also. I would need about an hour to lay out the evidence I have if you're interested? Busy today however.....Right now there is no reason for state funding commitments to this since part of the federal policy that it would take to make a go of it hasn't passed Congress yet and may not.....The Gov going so hard in public so early on this, has shynied a critical staff review of relevant issues...Thx Ladd</p> <div style="border: 1px solid black; padding: 5px; margin: 10px 0;"> <p>***** CAUTION: This email originated from an outside source. Do not click links or open attachments unless you know they are safe. *****</p> </div> <p>Bismarck Tribune story --</p> <h2>Hydrogen hub, Coal Creek projects among those recommended for state funding</h2> <p>• AMY R. SISK</p> <p>Proposals to establish a hydrogen hub in North Dakota and to retrofit Coal Creek Station with a carbon capture system are among the projects recommended for funding assistance via a new arm of state government focused on clean energy.</p> <p>The eight voting members of the Clean Sustainable Energy Authority met Tuesday and recommended the state award a combined \$28 million in grants and \$135 million in loans to six applicants.</p> <p>The three-member Industrial Commission, chaired by Gov. Doug Burgum, will have the final say over which projects receive funding. The commission is expected to make those decisions when it meets on Monday. Future funding rounds slated for 2022 are meant to allocate \$17 million in remaining grant dollars and \$115 million in loans.</p> <p>The recommendations made Tuesday were unanimous except for one no vote on a proposal from the company Bakken Energy for money to support engineering and design work for its planned hydrogen hub.</p> <p>Authority member Christopher Friez of North American Coal said unanswered questions surround the project, which aims to convert the Great Plains Synfuels Plant near Beulah for hydrogen production. The plant for decades has produced synthetic natural gas from coal mined at one of North American Coal's mines, along with a host of other products.</p> <p>Others members of the energy authority supported the proposal, saying it could help put natural gas produced in western North Dakota's oil fields to use. Bakken Energy anticipates the market for hydrogen will grow substantially in future years. Its hydrogen could be used to fuel large trucks and other vehicles.</p> <p>The authority recommended a \$10 million grant and an \$80 million loan to support the hydrogen project.</p> <p>The panel also suggested the Industrial Commission award the following:</p> <ul style="list-style-type: none"> • A \$7 million grant and a \$40 million loan for Cerilion, which is developing a plant in Trenton that will convert natural gas into liquid fuels. • A \$7 million grant for the University of North Dakota's Energy & Environmental Research Center, which is working on the engineering and design of a system to capture the carbon dioxide emissions from Coal Creek, the state's largest coal-fired power plant. Carbon emissions released into the atmosphere contribute to climate change. • A \$3 million grant to Midwest AgEnergy for its carbon capture and storage project at Blue Flint Ethanol in McLean County. |

| | |
|------|--|
| Body | <ul style="list-style-type: none"> • A \$1 million grant for Wellspring Hydro to source lithium and other products from saltwater produced in the oil fields. Lithium is used to make batteries and other products. • A \$15 million loan for Valence Natural Gas Solutions to expand the use of its mobile devices that capture natural gas that would otherwise be wastefully flared. <p>The energy authority recommended against funding Marathon Oil's proposal to install devices meant to reduce flaring at its oil field sites. Members indicated that they supported the project but did not want to help fund it because the technology is already commercially available. The goal of the Clean Sustainable Energy Authority is to promote the commercialization of emerging technology.</p> <p>The Legislature established the energy authority this year, designating \$25 million for grants to support projects, in addition to \$20 million for hydrogen-related proposals. Lawmakers also made \$250 million available in loans through a line of credit from the Bank of North Dakota.</p> <h3>Hydrogen</h3> <p>Leaders of the projects vying for funding each made pitches Tuesday to authority members, who spent considerable time learning about Bakken Energy's plan to establish a hydrogen hub in North Dakota centered around the synfuels plant.</p> <p>Bakken Energy is working on a deal to purchase the facility from Basin Electric Power Cooperative, the current operator. The plant also produces fertilizer, which would continue even after it is converted.</p> <p>The plant has faced financial trouble as it competes with cheap natural gas produced in places such as the Bakken amid the rise of horizontal drilling and fracking technology over the past 15 years.</p> <p>"Producing natural gas from coal, we are having huge losses ... and all the byproducts can't even come close to mitigating those losses we are incurring," said Paul Sukut, who recently retired as Basin's CEO. "Over the last three years, we have incurred hundreds of millions of dollars in losses."</p> <p>Basin leaders felt their options were either to shut the plant down entirely or close the coal gasification part of it and just produce fertilizer. Then along came Bakken Energy's hydrogen proposal.</p> <p>"For Basin Electric it is a way better option," Sukut said. "We hold all those jobs. They stay in North Dakota."</p> <p>The synfuels plant employs 525 people, all of whom are expected to retain their jobs. The workforce and the existing infrastructure at the facility are major reasons why Bakken Energy was interested in the site, CEO Mike Hopkins said.</p> <p>The plant "has a great deal of the equipment and the processes that you need to produce clean hydrogen on a very large scale," he said, adding that it "also has the people who know how to operate and run such an operation."</p> <p>"By acquiring and redeveloping the synfuels plant and by retaining this valuable workforce, we're in production faster and we have an unbeatable cost advantage," he said.</p> <p>Bakken Energy plans to bring in natural gas from the western North Dakota oil patch to use for hydrogen production. The company is working with Mitsubishi Power Americas to develop its plans. Carbon emissions generated during hydrogen production would be captured and buried permanently underground.</p> <p>It's unclear what the hydrogen proposal means for North American Coal's Freedom Mine, which supplies the plant with lignite used to make gas. No one at Tuesday's meeting provided a clear answer, though the topic came up.</p> |

| <p>A group known as the Coal Conversion Counties Association, made up of counties, cities and school districts in the coal-producing parts of North Dakota, sent a letter to the governor last week expressing concerns about the hydrogen hub, particularly as the coal industry faces an uncertain future and it appears the hydrogen industry is banking on federal subsidies.</p> <p>"Those federal hydrogen rules and financial incentives are far from settled at this juncture, which is the primary reason we question whether it is premature for any entity to receive state financial support for this type of venture right now," association President John Phillips wrote.</p> <p>North American Coal spokesperson David Straley told the Tribune that the volume of coal used by Basin at the plant and by other facilities supplied by the mine determines the number of miners employed. Wayne - this hydrogen hub funding is heading to the IC. We started looking into it after the Governor publically supported it in June. I haven't found evidence yet that this isn't just a gift for subsidies that will ever work in ND, and those requests for state funds will ever end on this thing. There is one big NFPA legal issue what hasn't be thought through by anyone on this also. I would need about an hour to lay out the evidence I have if you're interested? Busy today however.....Right now there is no reason for state funding commitments to this since part of the federal policy that it would take to make a go of it hasn't passed Congress yet and may not.....The Gov going so hard in public so early on this has stymied a critical staff review of relevant issues...Thx Ladd

Hydrogen hub, Coal Creek projects among those recommended for state funding

• AMY R. SISK

Proposals to establish a hydrogen hub in North Dakota and to retrofit Coal Creek Station with a carbon capture system are among the projects recommended for funding assistance via a new arm of state government focused on clean energy.

The eight voting members of the Clean Sustainable Energy Authority met Tuesday and recommended the state award a combined \$28 million in grants and \$135 million in loans to six applicants.

The three-member Industrial Commission, chaired by Gov. Doug Burgum, will have the final say over which projects receive funding. The commission is expected to make those decisions when it meets on Monday. Future funding rounds slated for 2022 are meant to allocate \$17 million in remaining grant dollars and \$115 million in loans.

The recommendations made Tuesday were unanimous except for one no vote on a proposal from the company Bakken Energy for money to support engineering and design work for its planned hydrogen hub.

Authority member Christopher Friez of North American Coal said unanswered questions surround the project, which aims to convert the Great Plains Synfuels Plant near Beulah for hydrogen production. The plant for decades has produced synthetic natural gas from coal mined at one of North American Coal's mines, along with a host of other products.

Others members of the energy authority supported the proposal, saying it could help put natural gas produced in western North Dakota's oil fields to use. Bakken Energy anticipates the market for hydrogen will grow substantially in future years. Its hydrogen could be used to fuel large trucks and other vehicles.

The authority recommended a \$10 million grant and an \$80 million loan to support the hydrogen project.

The panel also suggested the Industrial Commission award the following:

- A \$7 million grant and a \$40 million loan for Cerilion, which is developing a plant in Trenton that will convert natural gas into liquid fuels.
- A \$7 million grant for the University of North Dakota's Energy & Environmental Research Center, which is working on the engineering and design of a system to capture the carbon dioxide emissions from Coal Creek, the state's largest coal-fired power plant. Carbon emissions released into the atmosphere contribute to climate change.
- A \$3 million grant to Midwest AgEnergy for its carbon capture and storage project at Blue Flint Ethanol in McLean County.

Lithium is used to make batteries and other products. • A \$15 million loan for Valence Natural Gas Solutions to expand the use of its mobile devices that capture natural gas that would otherwise be wastefully flared. <p>The energy authority recommended against funding Marathon Oil's proposal to install devices meant to reduce flaring at its oil field sites. Members indicated that they supported the project but did not want to help fund it because the technology is already commercially available. The goal of the Clean Sustainable Energy Authority is to promote the commercialization of emerging technology.</p> <p>The Legislature established the energy authority this year, designating \$25 million for grants to support projects, in addition to \$20 million for hydrogen-related proposals. Lawmakers also made \$250 million available in loans through a line of credit from the Bank of North Dakota.</p> <h3>Hydrogen</h3> <p>Leaders of the projects vying for funding each made pitches Tuesday to authority members, who spent considerable time learning about Bakken Energy's plan to establish a hydrogen hub in North Dakota centered around the synfuels plant.</p> <p>Bakken Energy is working on a deal to purchase the facility from Basin Electric Power Cooperative, the current operator. The plant also produces fertilizer, which would continue even after it is converted.</p> <p>The plant has faced financial trouble as it competes with cheap natural gas produced in places such as the Bakken amid the rise of horizontal drilling and fracking technology over the past 15 years.</p> <p>"Producing natural gas from coal, we are having huge losses ... and all the byproducts can't even come close to mitigating those losses we are incurring," said Paul Sukut, who recently retired as Basin's CEO. "Over the last three years, we have incurred hundreds of millions of dollars in losses."</p> <p>Basin leaders felt their options were either to shut the plant down entirely or close the coal gasification part of it and just produce fertilizer. Then along came Bakken Energy's hydrogen proposal.</p> <p>"For Basin Electric it is a way better option," Sukut said. "We hold all those jobs. They stay in North Dakota."</p> <p>The synfuels plant employs 525 people, all of whom are expected to retain their jobs. The workforce and the existing infrastructure at the facility are major reasons why Bakken Energy was interested in the site, CEO Mike Hopkins said.</p> <p>The plant "has a great deal of the equipment and the processes that you need to produce clean hydrogen on a very large scale," he said, adding that it "also has the people who know how to operate and run such an operation."</p> <p>"By acquiring and redeveloping the synfuels plant and by retaining this valuable workforce, we're in production faster and we have an unbeatable cost advantage," he said.</p> <p>Bakken Energy plans to bring in natural gas from the western North Dakota oil patch to use for hydrogen production. The company is working with Mitsubishi Power Americas to develop its plans. Carbon emissions generated during hydrogen production would be captured and buried permanently underground.</p> <p>It's unclear what the hydrogen proposal means for North American Coal's Freedom Mine, which supplies the plant with lignite used to make gas. No one at Tuesday's meeting provided a clear answer, though the topic came up.</p> |

Hi Wayne,

We are working with Paul, DEQ, and NDIC on drafting our own ND comments. Paul's recommendation is that we not join the WV comments but we can note that we do endorse those comments. I can let WV know if you agree.

Subject: Comment Letter Join Opportunity: Methane Regulations for Oil and Gas

***** CAUTION: This email originated from an outside source. Do not click links or open attachments unless you know they are safe. *****

All,

Following up on our October letter concerning methane-related issues, West Virginia would invite you to join a comment letter concerning proposed regulations governing emissions of methane from sources in the oil and natural gas sectors. A draft is attached.

In short, EPA has proposed—at least in preamble form—a series of new source performance standards and emissions guidelines for existing sources in the oil and gas industries. As the letter explains, these acts overstep EPA's authority under Section 111 of the Clean Air Act, the very section at issue in *West Virginia v. EPA*. EPA has not made certain necessary endangerment and causation findings. They also appear to have given too much weight to a Congressional Resolution Act resolution that disapproved of an early Trump effort in this space. Further, the proposed rule leads to a number of costs that outweigh benefits while also traipsing on state authority in this space.

The EPA has not yet proposed actual regulatory text. We expect a further "supplemental" rulemaking at some later time. Because we're not certain about the scope of comments that will be permitted in response to that supplemental rulemaking, we think it important to go on the record now.

Many of you joined our letter to Congress on proposed methane fees. We hope you'll again join us to resist the latest effort to overregulate these industries for the sake of one pollutant. The comment must be submitted by January 31, so we would ask that you letter us know whether you'd like to join no later than **January 31 at noon Eastern**.

Many thanks,
Michael

We're writing to invite you to join us.</p> <p>As you know, the "Build Back Better Act" is working its way through the House, while related discussions are happening in the Senate. The present iteration includes a punitive \$1500-per-ton fee on methane emissions from oil and natural-gas facilities, which echoes a Senate proposal from earlier this summer to impose an \$1,800-per-ton fee on methane. The fees are based on some extraordinarily complicated formulas. But more importantly, they would drive up energy prices on Americans who are already facing some high prices. We also think that this is an incrementalist effort to impose a broader carbon tax.</p> <p>We hope you'll sign on to the attached draft. Because congressional negotiations are ongoing (and in a constant state of apparent flux), we would like to send the letter no later than next Thursday. With that said, would you please let us know if you'd like to sign on by 6pm Eastern on Wednesday, October 13? If you could include an appropriate e-signature with any response joining the letter, that'd also be appreciated.</p> <p>Thanks for considering this issue. And please don't hesitate to reach out if you have any comments, questions, or otherwise.</p> <p>Michael</p> <div data-bbox="507 1384 869 1491">  <p>Michael R. Attached is the Eighth Circuit's one-line order denying DOJ's request for a stay pending appeal. The opinion notes that Judge Kelly voted to grant the motion. I'm not sure if we'll eventually see an opinion from the court on this or if this is all we'll get, but the stay will remain in place for the time being. Now we'll have to see if the DOJ decides to ask SCOTUS for a stay.

All,

Attached is our draft response to DOJ's stay motion filed in the Eighth Circuit. If you have any suggestions, please send them to me by COB today. We're already at the max word limit, but we'll do our best to incorporate your suggestions, if any. We also may cut out some material to make room for a favorable Fifth Circuit opinion, should we get one today or tomorrow.

Thanks.

All,

DOJ has reach out to us and proposed filing their opposition to our PI motion by 12pm CT on 11/24 (the day before Thanksgiving). Recall that our motion to expedite proposed their opposition be due this Friday (with our reply brief filed on 11/22) to ensure we have a ruling from Judge Schelp by 5pm on 11/29. John, Jim, and I have conferred and are inclined to not consent to their proposal, as our proposal gives the judge time to consider briefing, hold an evidentiary hearing, and if we don't get relief, we have time to go to the Eighth Circuit for an injunction pending appeal.

Please let us know if you disagree. Thanks.

I agree with everything Jim has said. To that end, I will circulate a draft motion for expedited briefing and consideration of the PI motion with the following proposed schedule:

- DOJ opposition: November 19
- Plaintiff States'™ Reply: November 22
- A hearing, if the Court deems it necessary, on November 23 (earliest) but no later than November 29 (we should leave the week of the 29th open in case we need to seek emergency relief from the Eighth Circuit/SCOTUS before December 5)

Let us know if you have any thoughts. Thanks

Subject: RE: ATTORNEY WORK PRODUCT - CONFIDENTIAL - Federal Vaccine Mandate for Health-Care Workers - Draft Complaint

While Jesus is getting the complaint filed, I wanted to let you all know that our plan is to file a MPI on Friday. While this schedule is aggressive, so is the timeline we'd™re up against. The mandate requires all covered employees to get their first shots by December 5, and obviously decisions by healthcare workers and facilities need to be made before then. So please start gathering declarations in support of the MPI. Here are the kinds of facts we need (Jesus, Maddie, John, and Josh, please feel free to add others) Note that I'd™ve highlighted the most important ones:

- Facts showing the existing healthcare staffing shortages in your state
- Facts about your state-run healthcare agencies that will be covered by the mandate
 - How many
 - How large
 - Description of existing workforce shortages
 - What percentage of employees are unvaccinated
 - What percentage of funding comes from Medicare/Medicaid
 - What are the anticipated adverse effects of the mandate on these state-run facilities, including:
 - Number of employees that they might lose
 - Anticipation on loss of services
 - Anticipation of closures (whether certain divisions or entire facilities)
- Facts about your state surveyors
 - How many
 - Confirm that they are state employees
 - Describe their duties in enforcing Medicare/Medicaid compliance
- Facts about specific healthcare facilities in your state that are willing to give a helpful declaration
 - Description of existing workforce shortages
 - What percentage of employees are unvaccinated
 - What percentage of funding comes from Medicare/Medicaid
 - What are the anticipated adverse effects of the mandate on these state-run facilities, including:
 - Number of employees that they might lose
 - Anticipation on loss of services
 - Anticipation of closures (whether certain divisions or entire facilities)

| <p>Body</p> | <p>Note that we have a few draft declarations, particularly declarations from healthcare facilities, that my colleague Josh can share if anyone wants to see them. Itâ€™d be good to have the declarations by Friday morning, but the earlier you can get them to us, the better. Body

Going forward with this, you may want to coordinate with DPI counsel. I will be occupied with depositions for the abortion case for the next two days.

I will send you a couple of model declarations. To the extent you have cooperative head start officials, it certainly helps. I will send you something later today that you can use and feel free to modify. It would help to know who you have that would sign. State officials say something a different from Program Directors and Teachers.

If you need a declaration of some sort from North Dakota, we can get one.
Just let me know.

Subject: RE: ACF/OHS/HHS - Head Start Mandate

Louisiana is in the process of drafting a complaint. We will have draft declaration available today. We have identified about 6 program directors willing to sign declaration (some more detailed than others).

We plan to file in the Western District of LA, which at this point is where most if not all our declarations will come from. As a practical matter, I don't think we can get the Complaint and PI filed until next week so we are shooting for Tuesday of next week.

We welcome all joiners

Body

Going forward with this, you may want to coordinate with DPI counsel. I will be occupied with depositions for the abortion case for the next two days.

I will send you a couple of model declarations. To the extent you have cooperative head start officials, it certainly helps. I will send you something later today that you can use and feel free to modify. It would help to know who you have that would sign. State officials say something a different from Program Directors and Teachers.

If you need a declaration of some sort from North Dakota, we can get one.
Just let me know.

Elizabeth,
North Dakota will also likely want to join you.
Thanks

SD will likely join LA. Elizabeth, can you share a draft declaration and I will see if I can find appropriate signatories.

Subject: RE: ACF/OHS/HHS - Head Start Mandate

Louisiana is in the process of drafting a complaint. We will have draft declarations available today. We have identified about 6 program directors willing to sign declarations (some more detailed than others).

We plan to file in the Western District of LA, which at this point is where most if not all our declarations will come from. As a practical matter, I don't think we can get the Complaint and PI filed until next week so we are shooting for Tuesday of next week.

We welcome all joiners.

The masking requirements for 2 year olds takes effect immediately. I am not sure how this is being handled currently in these programs, but the Head Start guidance did not require it until the 29th I don't think. (The Early Care guidance was updated November 10, 2021; the Head Start guidance was updated November 29 (Monday)). We are working up a complaint, TRO, and PI. The TRO is necessary due to the masking requirements for 2 years olds, which took effect upon publication. Friends – attached is the most updated draft of the complaint. The State-specific allegations for plaintiffs and states are still a work in progress, but we have a robust coalition. Several states have sent me some suggested revisions, including minimizing allegations that get into efficacy of vaccines. I agree with that approach. I didn't take it all out but modified some paragraphs and deleted others. I worked on amplifying State standing allegations.

Please provide me with signature blocks and any other recommendations. GA has provided a declaration, which may change a little but is provided for your reference. Also attached a draft Dec we are using with our program directors. If you have a superintendent of a public school system who is a willing declarant, it would be helpful for him/her to speak to blending of funds, need to lean on the state to backfill lost funding, educational opportunities lost and hindered for entering Kindergarten.

If I missed edits you suggested, please resend them to me.

The masking requirements for 2 year olds takes effect immediately. I am not sure how this is being handled currently in these programs, but the Head Start guidance did not require it until the 29th I don't think. (The Early Care guidance was updated November 10, 2021; the Head Start guidance was updated November 29 (Monday)). We are working up a complaint, TRO, and PI. The TRO is necessary due to the masking requirements for 2 years olds, which took effect upon publication. An expedited PI would likely be necessary in the absence of a TRO due to the deadlines for compliance.</p> <p>Please let me know if you are interested in joining. The SG just filed an application with SCOTUS to stay the preliminary injunction of the CMS mandate in our case. See attached. Also, a footnote in that filing indicates that they have, or will shortly, file a similar application in the Louisiana CMS case.

The SG just filed an application with SCOTUS to stay the preliminary injunction of the CMS mandate in our case. See attached. Also, a footnote in that filing indicates that they have, or will shortly, file a similar application in the Louisiana CMS case.

Animal Legal Defense Fund</i> (U.S.). At issue is Kansas's state trespass by deception statute applicable at animal facilities. Animal rights groups wish to gain access to such facilities, typically by giving false statements on job applications/interviews. The Tenth Circuit held that this is protected speech, and thus the trespass statute is unconstitutional. The Eighth Circuit upheld a similar statute from Iowa. Kansas's cert petition is also attached. The amicus argues that the right to exclude is a fundamental aspect of private property rights and that cert should be granted to resolve the conflicts among the courts of appeals. Animal Legal Defense Fund</i> (U.S.). At issue is Kansas's state trespass by deception statute applicable at animal facilities. Animal rights groups wish to gain access to such facilities, typically by giving false statements on job applications/interviews. The Tenth Circuit held that this is protected speech, and thus the trespass statute is unconstitutional. The Eighth Circuit upheld a similar statute from Iowa. Kansas's cert petition is also attached. The amicus argues that the right to exclude is a fundamental aspect of private property rights and that cert should be granted to resolve the conflicts among the courts of appeals. Deadline to join is COB Tuesday December 21. To join, please email melissaholyoak@agutah.gov.</p> <p>Happy Holidays!</p> <p>Melissa A. Team,

Justice Kavanaugh has requested our response to the Government's stay application in the CMS case by December 30 (which, incidentally, is the same day he requested the federal government's response to our stay request in the OSHA case). We will aim to circulate a draft a head of time. Stay tuned.

Team,

The SG just filed an application with SCOTUS to stay the preliminary injunction of the CMS mandate in our case. See attached. Also, a footnote in that filing indicates that they have filed a similar application in the Louisiana CMS case. We will start drafting a response, anticipating that SCOTUS will ask for something by early next week.

Attached is the Eighth Circuit's one-line order denying DOJ's request for a stay pending appeal. The opinion notes that Judge Kelly voted to grant the motion. I'm not sure if we'll eventually see an opinion from the court on this or if this is all we'll get, but the stay will remain in place for the time being. Now we'll have to see if the DOJ decides to ask SCOTUS for a stay.

Attached is our draft response to DOJ's stay motion filed in the Eighth Circuit. If you have any suggestions, please send them to me by COB today. We're already at the max word limit, but we'll do our best to incorporate your suggestions, if any. We also may cut out some material to make room for a favorable Fifth Circuit opinion, should we get one today or tomorrow.

Thanks.

All,

DOJ has reach out to us and proposed filing their opposition to our PI motion by 12pm CT on 11/24 (the day before Thanksgiving). Recall that our motion to expedite proposed their opposition be due this Friday (with our reply brief filed on 11/23) to ensure we have a ruling from Judge Schelp by 5pm on 11/29. John, Jim, and I have conferred and are inclined to not consent to their proposal, as our proposal gives the judge time to consider briefing, hold an evidentiary hearing, and if we don't get relief, we have time to go to the Eighth Circuit for an injunction pending appeal.

Please let us know if you disagree. Thanks.

I agree with everything Jim has said. To that end, I will circulate a draft motion for expedited briefing and consideration of the PI motion with the following proposed schedule:

- DOJ opposition: November 19
- Plaintiff States' Reply: November 22
- A hearing, if the Court deems it necessary, on November 23 (earliest) but no later than November 29 (we should leave the week of the 29th open in case we need to seek emergency relief from the Eighth Circuit/SCOTUS before December 3).

Let us know if you have any thoughts. Thanks.

While Jesus is getting the complaint filed, I wanted to let you all know that our plan is to file a MPI on Friday. While this schedule is aggressive, so is the timeline we're up against. The mandate requires all covered employees to get their first shots by December 5, and obviously decisions by healthcare workers and facilities need to be made before then. So please start gathering declarations in support of the MPI. Here are the kinds of facts we need (Jesus, Maddie, John, and Josh, please feel free to add others): Note that I've highlighted the most important ones.

- Facts showing the existing healthcare staffing shortages in your state
- Facts about your state-run healthcare agencies that will be covered by the mandate
 - How many
 - How large
 - Description of existing workforce shortages
 - What percentage of employees are unvaccinated
 - What percentage of funding comes from Medicare/Medicaid
 - What are the anticipated adverse effects of the mandate on these state-run facilities, including:
 - Number of employees that they might lose
 - Anticipation on loss of services
 - Anticipation of closures (whether certain divisions or entire facilities)
- Facts about your state surveyors
 - How many
 - Confirm that they are state employees
 - Describe their duties in enforcing Medicare/Medicaid compliance
- Facts about specific healthcare facilities in your state that are willing to give a helpful declaration

Team,

Justice Kavanaugh has requested our response to the Government's stay application in the CMS case by December 30 (which, incidentally, is the same day he requested the federal government's response to our stay request in the OSHA case). We will aim to circulate a draft a head of time. Stay tuned.

Team,

The SG just filed an application with SCOTUS to stay the preliminary injunction of the CMS mandate in our case. See attached. Also, a footnote in that filing indicates that they have filed a similar application in the Louisiana CMS case. We will start drafting a response, anticipating that SCOTUS will ask for something by early next week.

Attached is the Eighth Circuit's one-line order denying DOJ's request for a stay pending appeal. The opinion notes that Judge Kelly voted to grant the motion. I'm not sure if we'll eventually see an opinion from the court on this or if this is all we'll get, but the stay will remain in place for the time being. Now we'll have to see if the DOJ decides to ask SCOTUS for a stay.

Attached is our draft response to DOJ's stay motion filed in the Eighth Circuit. If you have any suggestions, please send them to me by COB today. We're already at the max word limit, but we'll do our best to incorporate your suggestions, if any. We also may cut out some material to make room for a favorable Fifth Circuit opinion, should we get one today or tomorrow.

Thanks.

All,

DOJ has reach out to us and proposed filing their opposition to our PI motion by 12pm CT on 11/24 (the day before Thanksgiving). Recall that our motion to expedite proposed their opposition be due this Friday (with our reply brief filed on 11/23) to ensure we have a ruling from Judge Schelp by 5pm on 11/29. John, Jim, and I have conferred and are inclined to not consent to their proposal, as our proposal gives the judge time to consider briefing, hold an evidentiary hearing, and if we don't get relief, we have time to go to the Eighth Circuit for an injunction pending appeal.

Please let us know if you disagree. Thanks.

I agree with everything Jim has said. To that end, I will circulate a draft motion for expedited briefing and consideration of the PI motion with the following proposed schedule:

- DOJ opposition: November 19
- Plaintiff States' Reply: November 22
- A hearing, if the Court deems it necessary, on November 23 (earliest) but no later than November 29 (we should leave the week of the 29th open in case we need to seek emergency relief from the Eighth Circuit/SCOTUS before December 3).

Let us know if you have any thoughts. Thanks.

While Jesus is getting the complaint filed, I wanted to let you all know that our plan is to file a MPI on Friday. While this schedule is aggressive, so is the timeline we're up against. The mandate requires all covered employees to get their first shots by December 5, and obviously decisions by healthcare workers and facilities need to be made before then. So please start gathering declarations in support of the MPI. Here are the kinds of facts we need (Jesus, Maddie, John, and Josh, please feel free to add others): Note that I've highlighted the most important ones.

- Facts showing the existing healthcare staffing shortages in your state
- Facts about your state-run healthcare agencies that will be covered by the mandate
 - How many
 - How large
 - Description of existing workforce shortages
 - What percentage of employees are unvaccinated
 - What percentage of funding comes from Medicare/Medicaid
 - What are the anticipated adverse effects of the mandate on these state-run facilities, including:
 - Number of employees that they might lose
 - Anticipation on loss of services
 - Anticipation of closures (whether certain divisions or entire facilities)
- Facts about your state surveyors
 - How many
 - Confirm that they are state employees
 - Describe their duties in enforcing Medicare/Medicaid compliance
- Facts about specific healthcare facilities in your state that are willing to give a helpful declaration

Friends:

Attached is the working draft of the Complaint, which still has a few nits I need to run down. I apologize if I did not get in some of the edits. If I missed something you feel strongly needs fixing or changing, please email me. A couple of overall comments (hopefully nothing deal breaking):

- I moderated some adjectives/rhetoric as recommended by several states.
- I am reviewing the use of child/children/toddler throughout to make sure we use it appropriately in that sentence. Sometimes it makes sense to emphasize they are toddlers and sometimes its better to say child/children.
- Used "staff and volunteers" rather than "educators" and will search for any places we need to replace. (the rule actually goes beyond them so we point that out in places too.)
- Amped up some of the blended funds paragraphs and will have Declaration from Louisiana school Superintendents on that point. GA also had some State enforcement. I think we are in a good spot with regard to state impacts.
- I did not take out the references to harm to the toddlers due to the Toddler Mask Mandate b/c we are seeking a TRO/PI to halt that immediately. We have to show its harmful or we can't meet the legal standard. I will have a pediatrician to back up the allegations. And if we have a five PI hearing, I may put some teachers on the stand to talk about the practical effect in the classroom of this requirement.

PLEASE CHECK YOUR SIG BLOCKS.

Tyler and his rock stars are working on the PI memo, IF YOU HAVE A DECLARATION COMING, PLEASE CC TYLER WHEN YOU SEND TO ME. A few of the Decs are attached for your reference (so far we are likely to have about 15). I also attached the NISA summary of its survey after the rule came out. The Director of Gov't Relations returned my call tonight. He is checking on my request for someone to do a declaration that authenticates their letter to Becerra and this summary of their survey. If they don't, I may just attach it anyway b/c they sent it to Becerra.

THANKS FOR YOUR PARTICIPATION. WE HAVE A REALLY STRONG COALITION. HOPING TO FILE THE WHOLE PACKAGE MONDAY.

Subject: RE: Head Start

Friends – attached is the most updated draft of the complaint. The State-specific allegations for plaintiffs and states are still a work in progress, but we have a robust coalition. Several states have sent me some suggested revisions, including minimizing allegations that get into efficacy of vaccines. I agree with that approach. I didn't take it all out but modified some paragraphs and deleted others. I worked on amplifying State standing allegations.

Please provide me with signature blocks and any other recommendations. GA has provided a declaration, which may change a little but is provided for your reference. Also attached a draft Dec we are using with our program directors. If you have a superintendent of a public school system who is a willing declarant, it would be helpful for him/her to speak to blending of funds, need to lean on the state to backfill lost funding, educational opportunities lost and hindered for entering Kindergarten.

If I missed edits you suggested, please resend them to me.

Friends:

Attached is the working draft of the Complaint, which still has a few nits I need to run down. I apologize if I did not get in some of the edits. If I missed something you feel strongly needs fixing or changing, please email me. A couple of overall comments (hopefully nothing deal breaking):

- I moderated some adjectives/rhetoric as recommended by several states.
- I am reviewing the use of child/children/toddler throughout to make sure we use it appropriately in that sentence. Sometimes it makes sense to emphasize they are toddlers and sometimes its better to say child/children.
- Used "staff and volunteers" rather than "educators" and will search for any places we need to replace. (the rule actually goes beyond them so we point that out in places too.)
- Amped up some of the blended funds paragraphs and will have Declarations from Louisiana school Superintendents on that point. GA also had some State enforcement. I think we are in a good spot with regard to state impacts.
- I did not take out the references to harm to the toddlers due to the Toddler Mask Mandate b/c we are seeking a TRO/PI to halt that immediately. We have to show its harmful or we can't meet the legal standard. I will have a pediatrician to back up the allegations. And if we have a five PI hearing, I may put some teachers on the stand to talk about the practical effect in the classroom of this requirement.

PLEASE CHECK YOUR SIG BLOCKS.

Tyler and his rock stars are working on the PI memo, IF YOU HAVE A DECLARATION COMING, PLEASE CC TYLER WHEN YOU SEND TO ME. A few of the Decs are attached for your reference (so far we are likely to have about 15). I also attached the NISA summary of its survey after the rule came out. The Director of Gov't Relations returned my call tonight. He is checking on my request for someone to do a declaration that authenticates their letter to Becerra and this summary of their survey. If they don't, I may just attach it anyway b/c they sent it to Becerra.

THANKS FOR YOUR PARTICIPATION. WE HAVE A REALLY STRONG COALITION. HOPING TO FILE THE WHOLE PACKAGE MONDAY.

Liz

Subject: RE: Head Start

Friends – attached is the most updated draft of the complaint. The State-specific allegations for plaintiffs and states are still a work in progress, but we have a robust coalition. Several states have sent me some suggested revisions, including minimizing allegations that get into efficacy of vaccines. I agree with that approach. I didn't take it all out but modified some paragraphs and deleted others. I worked on amplifying State standing allegations.

Please provide me with signature blocks and any other recommendations. GA has provided a declaration, which may change a little but is provided for your reference. Also attached a draft Dec we are using with our program directors. If you have a superintendent of a public school system who is a willing declarant, it would be helpful for him/her to speak to blending of funds, need to lean on the state to backfill lost funding, educational opportunities lost and hindered for entering Kindergarten.

If I missed edits you suggested, please resend them to me.
