

October 25, 2024

Mr. Carpenter,

In response to your letter, in my position as Executive Assistant to Attorney General Wayne Stenehjem and Public Information Officer for the Office of Attorney General:

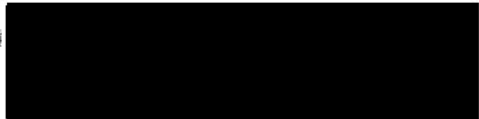

1. I had no policy, financial, or decision-making authority regarding the building, the lease, the construction project, or the relocation of agency personnel.
2. I was not involved in policy, financial, or decision-making meetings relating to the building location, lease negotiations, lease terms, or building costs.
3. While I may have been copied on some electronic communications, I was not assigned any responsibility or authority over any part of the project. This project was part of Chief Deputy Troy Seibel's duties and authority, and he kept and maintained those records.
4. To the best of my recollection, the people who may have first-hand knowledge are Finance Director **Becky Keller** and other members of the Finance division, BCI Director **Lonnie Grabowska** and some of the BCI chief agents, former CPAT director **Parrell Grossman**, and, possibly, staff attorneys within the Attorney General's office who may have provided legal advice or legal reviews for this project.

I have nothing further to add.

Sincerely,

Elizabeth Brocker
