NOTE for Building Inspections Permit: Work under this permit must commence within 180 days of permit issuance. Permittee must comply with all codes and ordinances applicable to work. Issuance of the permit does not grant any authorities to erect, modify, or use any structure in violation of any code or ordinance. All required inspections, including a final inspection, must be requested by the Permittee. In consideration for connection to City utilities, Permittee agrees to pay all applicable utility fees and charges pursuant to City Ordinance. This permit creates no warranties with regard to construction or code compliance. The inspections under this permit are for the benefit of the public and not the Permittee and the inspections do not create a duty to the Permittee, this owner, or to a subsequent purchaser with regard to quality of construction or code compliance. Federal law may require this construction project to conform to the Americans with Disabilities Act Accessibility Guidelines for Building and Facilities. NOTE for Fire requirements: Any additional requirements as specified during the plan review must be complied with. Any additional inspections or testing that is required shall be the responsibility of the contractor.
