

North Dakota Legislative Council

Prepared for the Government Administration Committee

LC# 23.9279.01000

April 2022

SURVEY OF AGENCY SPACE NEEDS AND LEASES

The interim Government Administration Committee has been assigned studies of the amount, type, cost, and occupancy of property leased by the state and of space needs of executive, judicial, and legislative branches and the Ethics Commission. The studies include an assessment of the space needs of each branch to fulfill their constitutional and statutory responsibilities, an evaluation of state agency leases from private and other governmental entities, and a determination of the individuals who own the property leased by the state. The committee, at its October 25, 2021, meeting asked the Legislative Council staff to conduct a survey of state agencies to collect information on space usage and needs and the owners of leased space. The survey was issued to all state agencies excluding institutions under the control of the State Board of Higher Education. A summary of the results of the survey responses are below.
