

BLACK LEG RANCH · MCKENZIE, NORTH DAKOTA · EST. 1882

YOU ARE INVITED TO JOIN POLICY MAKERS & THOUGHT LEADERS AT THE

Advancing Soil Health for a Healthy America Summit

A FULL-DAY IMMERSIVE RANCH EXPERIENCE · AUGUST 26, 2026

MARK YOUR CALENDAR

August 26

Full-Day Ranch Experience

Depart Bismarck · Morning | Dinner & Social · Evening

Experience regenerative agriculture first-hand at one of North Dakota's most historic ranches. Ride through native grassland, walk living soil, share a meal under open sky — and be part of a national conversation connecting soil health to human health, food security, and America's agricultural future.

FIVE GENERATIONS OF STEWARDSHIP — THE BLACK LEG RANCH FAMILY

★ Invited Speakers & Leaders

NATIONAL & STATE POLICY MAKERS · REGENERATIVE AGRICULTURE CHAMPIONS

Sec. RFK Kennedy

Secretary of Health & Human Services

Sec. Brooke Rollins

Secretary of Agriculture, USDA

Lee Zeldin

Administrator, Environmental Protection Agency

Gov. Kelly Armstrong

Governor, North Dakota

Sen. John Hoeven

U.S. Senate, North Dakota

Rep. Julie Fedorchak

U.S. House, North Dakota

...and many additional state and national leaders. Invitations have been extended; speaker confirmations ongoing.

1

Board the Bus · Bismarck Hotel

Travel Hwy 1804 along the scenic Missouri River — 40 minutes with on-board commentary on North Dakota history, the landscape, and regenerative agriculture.

2

South Ranch Ride to Long Lake Creek

Load trailers and ride through native grassland to Long Lake Creek. View a new multi-partner conservation bridge; hear speakers on rotational grazing and Missouri River Watershed water quality. Enjoy a creekside lunch in the open prairie — land rich with Indian and buffalo history.

3

Headquarters Ranch · Rotational Grazing System

Short ride into an active grazing system. Discussion on ecosystem improvement, water infiltration, biodiversity, carbon sequestration, and the connections between regenerative agriculture and MAHA.

4

25-Species Cover Crop Field

Walk the cover crops. Explore winter grazing economics and the direct connections between healthy soil and human health, wildlife habitat, and a resilient food supply.

FEATURED SPEAKER

JK

John Klar

REGENERATIVE AGRICULTURE & MAHA ADVOCATE

John Klar joins us as a guest speaker, bringing deep expertise on regenerative agriculture, food sovereignty, and the critical connection between farming practices and human health — a compelling voice for the MAHA movement and America's agricultural future.
