

Why Can't I Withdraw Money from Uphold? Common Reasons & Solutions 📞

If you're wondering, **"Why can't I withdraw money from Uphold?"** ☞👉+1 🎵 [888] → 574 → 7167 you're not alone. Users may encounter withdrawal restrictions because of recent deposits, account reviews, unavailable balances, ☞👉+1 🎵 [888] → 574 → 7167 or payment-method requirements. Understanding the reason can help you determine what to do next.

Why Can't I Withdraw Money from Uphold? 📞

There are several reasons why a withdrawal may ☞👉+1 🎵 [888] → 574 → 7167 not be available. For U.S. bank withdrawals, Uphold says recently deposited ACH funds may need to settle before they can be withdrawn, ☞👉+1 🎵 [888] → 574 → 7167 and certain accounts can also be subject to a longer cooling-off restriction depending on how the bank account ☞👉+1 🎵 [888] → 574 → 7167 was linked.

Check Your Available Balance

Your total balance may not be the same as the amount currently ☞👉+1 🎵 [888] → 574 → 7167 available for withdrawal. Recent deposits can remain unavailable until they have fully settled.

Review Recent Bank Deposits

If you recently funded your Uphold account through ACH, ☞👉+1 🎵 [888] → 574 → 7167 the funds may require up to five business days to settle before they can be withdrawn.

Check Your Linked Bank Account

Make sure the destination bank account is correctly ☞👉+1 🎵 [888] → 574 → 7167 linked and eligible for the withdrawal method you're using. Uphold's U.S. terms state that withdrawals can be made through available ☞👉+1 🎵 [888] → 574 → 7167 methods such as ACH to a bank account.

Review Account Restrictions

A security or compliance review can temporarily restrict ☞👉+1 🎵 [888] → 574 → 7167 withdrawals. Uphold says it may restrict an account when it needs to review a transaction, detects ☞👉+1 🎵 [888] → 574 → 7167 unusual activity, or is required to do so by law.

Check Crypto Withdrawal Requirements

If you're withdrawing cryptocurrency to an external wallet, ☞👉+1 🎵 [888] → 574 → 7167 the specific asset and blockchain network must support withdrawals. Some networks may also require a destination tag or memo.

Frequently Asked Questions (FAQs) 📞
